JOURNAL OF THE TELEGRAPH.

VOL. XXX.

NEW YORK, JANUARY 20, 1897

WHOLE NO. 528.

SERIAL BUILDING LOAN AND SAVINGS INSTITUTION.

The Serial Building Loan and Savings Institution has continued to prosper during the past year. Its membership has increased from 5,950 shares on January 1, to 6,808 on December 31. During this time its third and fourth series issued in 1886, reached maturity, and several employees of the general operating department at 195 Broadway, New York, had the satisfaction of clearing their homes of incumbrance. Below is the report of the Association.

24TH SEMI-ANNUAL STATEMENT, DECEMBER 31, 1896. PUBLIC LIBRARY

DAVID B. MICHELL, President.
EDWIN F. HOWELL, Secretary.

NEW YORK, January 18, 1897.

We certify that we have examined the books and securities of the Secretary and Treasurer and find them correct.

W. J. DEALY,
ROBERT N. NESBITT, { Auditors.
JAMES R. BEARD,

Fifth series shares will mature on May 31, 1897.
Value, \$200.85.

LORD KELVIN holds that the internal heat of the earth has nothing to do with the climates. The earth he says might be of the temperature of white hot iron two thousand feet below the surface, or at the freezing point fifty feet below, without at all affecting a climate.—*Bubier's Electrician*.

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 81,000 in number. Hence it is the best advertising medium of its class in the world.

Nothing inserted for less than one dollar.

A reasonable discount will be allowed on advertisements to remain standing, for which special arrangements can be made.

NEW YORK, JANUARY 20, 1897.

September 1, 1895.

To ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,
President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate" should also be taken credit for in, and turned in with, the monthly Form No. 4 Report.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1893.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4.) Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to 50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over \$50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over \$30.00 to \$40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (accepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

Seventh. The small treasurer's envelope, Form 128, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

R. H. ROCHESTER, Treasurer.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the War Department—Official Telegram form (on blue paper, and certified as on Official Business by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it.

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 89 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

THE attention of all telegraph offices is directed to the following decision of the Secretary of War, in relation to telegrams regarding leaves of absence of army officers:

"Telegrams sent to any headquarters, making application for leaves of absence, or extension of leaves, or of inquiry whether leaves have been granted, and the replies made by telegraph thereto, are regarded as personal, and must not be sent or paid for as public dispatches."

NEW YORK, May 30, 1894.

To All Western Union Managers:

You are authorized to send "collect," without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,
President and General Manager.

A RECENTLY discovered mountain lake on the island of Fernando Po is situated at an altitude of 1,880 meters and is 1,170 meters long and 800 meters wide. High mountains surround the lake and a waterfall leaps into it, but there is no visible outlet.—Prometheus.

New York Telegraphers' Aid Society.

The quarterly report of the New York Telegraphers' Aid Society, ending December 31, is as follows:

Balance on hand September 30.....	\$6,145 77
Receipts during quarter:	
Fees.....	\$23 00
Dues.....	1,242 50 1,265 50
Total	\$7,411 27
Disbursements:	
Sick Benefits.....	\$541 73
Expenses.....	46 50 588 28
Balance on hand.....	6,823 04
Total	\$7,411 27

Attested to by Gardner Irving, G. W. Patterson, and Maxwell Green, auditing committee.

TARIFF BUREAU.**MONTHLY CIRCULAR.**

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January 20, 1897.

The following list of "Changes" corrects the Tariff Book of January, 1897, to date. Changes in the list of "New Offices" are not included.

The hand ~~is~~ indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Chester Heights, Pa., which was formerly a double star station, but which is now a Western Union office in Square 59.

See Special Notices at end of this circular.

CHANGES.

A modification of Rule 68, to take effect on and after January 1, 1897, has been authorized. As modified, the rule will read:

Rule 68. Sunday's messages will be entered as a part of the previous Saturday's business, except when the first day of the month falls on Sunday, in which case Sunday's messages will be entered as a part of the business of the following Monday.

Bunder Abbas	
Lingah	

The Atlantic Cable rate to Great Britain, Ireland, France and Germany, from Wyoming, is 8¢ per word.

Correct Tariff Book, page 407.

SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the

necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks" give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 407 to 422, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 855 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 188), Catskill Mountains (page 189), and Lake George (page 197). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Notifications of the arrival of steamers at the Port of New York will be forwarded to any ad-

dress during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,
President.

TRANSFER SERVICE

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Frankfort, Ind., and temporarily discontinued at Beatrice, Neb., Natoon, Ill., and Salisbury, N. C.

On January 2d, Strathroy, Ont., was added to the list of Class E, transfer offices in Arthur Cox's district.

On January 15th, Canon City, Col., Greeley, Col., and Telluride, Col., was added to the list of Class D, transfer offices in B. J. Dickey's district.

Perry, Okla., should be stricken from the list of transfer offices in Tariff Book of January, 1897.

Managers will correct their lists accordingly.

THOS. T. ECKERT,
President

GOLD AND STOCK LIFE INSURANCE ASSOCIATION.

The Annual Meeting of the Gold and Stock Life Insurance Association was held in Room 70, 405 Broadway, New York, January 18th.

The Secretary reported the present membership 930, and a net increase of membership during the year of 26, and a monthly average of 916. Ten deaths were reported, one to every 92 of membership. The average age of deceased members was 42 years and 9 months, and the average duration of membership 8 years and 10 months.

TREASURER'S REPORT.

NEW YORK, January 18th, 1897.

To the Members of the Gold and Stock Life Insurance Association.

Your Treasurer respectfully submits the following report of receipts and disbursements for the year ending December 31st, 1896:

engineers believe. By reasons both of economy and convenience we are driven to the general adoption of a system of energy supply from central stations, and for such purposes the beauties of the mechanical generation of electricity can not be exaggerated. The advantages of this universally accepted method are certainly so great that the probability of replacing the engine dynamos by batteries is, in my opinion, a remote one, the more so as the high-pressure steam engine and gas engine give promise of a considerably more economical thermodynamic conversion. Even if we had this day such an economical coal battery, its introduction in central stations would by no means be assured, as its use would entail many inconveniences and drawbacks. Very likely the carbon could not be burned in its natural form as in a boiler, but would have to be specially prepared to secure uniformity in the current generation. There would be a great many cells needed to make up the electro-motive force usually required. The process of cleaning and renewal, the handling of nasty fluids and gases and the great space necessary for so many batteries would make it difficult, if not commercially unprofitable, to operate such a plant in a city or densely populated district. Again, if the station be erected in the outskirts, the conversion by rotating transformers or otherwise would be a serious and unavoidable drawback. Furthermore, the regulating appliances and other accessories which would have to be provided would probably make the plant fully as much, if not more, complicated than the present. We might, of course, place the batteries at or near the coal mine, and from there transmit the energy to distant points in the form of high-tension alternating currents obtained from rotating transformers, but even in this most favorable case the process would be a barbarous one, certainly more so than the present, as it would still involve the consumption of material, while at the same time it would restrict the engineer and mechanic in the exercise of their beautiful art. As to the energy supply in small isolated places as dwellings, I have placed my confidence in the development of a light storage battery, involving the use of chemicals manufactured by cheap water power, such as some carbide or oxygen-hydrogen cell.

ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00. AGENTS WANTED.

PONY TELEPHONE RECEIVERS.

(CUT FULL SIZE)

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price..... 50 Cents.

EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.
(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

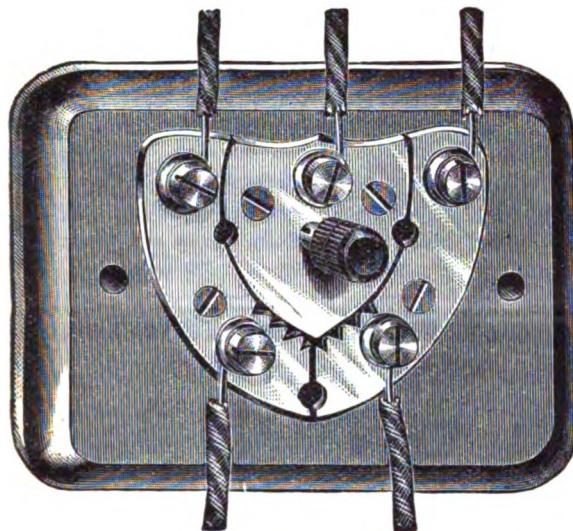

THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines.....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

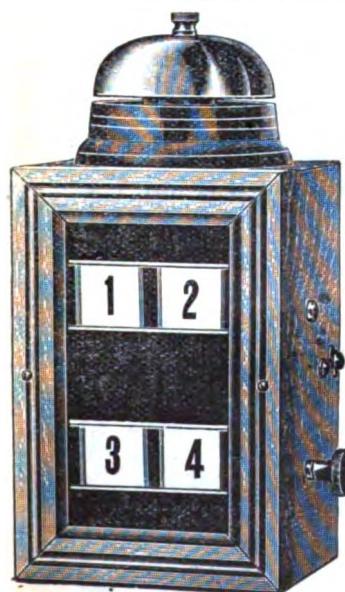

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,
\$0.50.

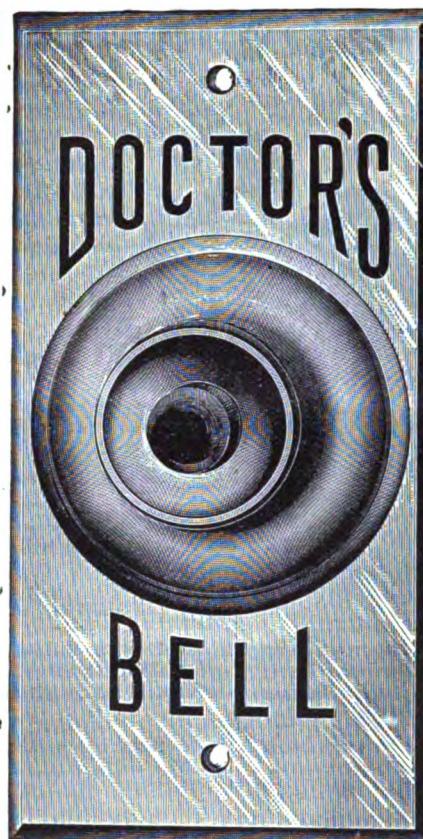

SMALL ANNUNCIATORS.

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2..... \$2.00.
" 4..... 3.00.
" 6..... 3.75.

Our regular Electrical Supply Catalogue,
224 pages, 10 cents.

PUSH BUTTONS.

We make nearly 100 different styles of push buttons.

They are all finely finished and made from best metal.

THIS STYLE (cut full size) furnished in bronze ("Doctor's Bell," "Night Bell" or "Janitor's Bell").

Price, each..... \$0.75.

Our Pushes are finished in bronze, nickel plated, silver plated, oxydized silver, oxydized copper, brass and Bower Barff (dead black).

IF YOU WANT

Anything in the ELECTRICAL line write us. Our facilities for manufacturing are the best, and we carry everything in the Electrical line.

Also a full stock of

J. H. BUNNELL & CO.'S

STEEL LEVERSOLID
TRUNNION**KEYS.**PRICE,
1.75.

OVER 100,000 NOW IN USE.

THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1891.

THE BUNNELL STEEL LEVER KEY is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platinum points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

**LEGLESS PATTERN STEEL LEVER KEY**

New Form with Open Base.

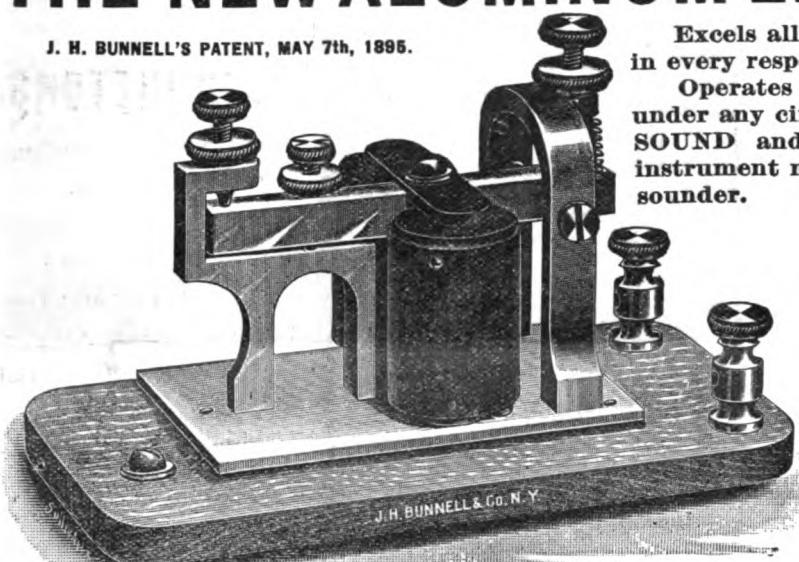

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length. \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,
AND STEEL LEVER KEY****COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

The New Departure Learners' Outfit....**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

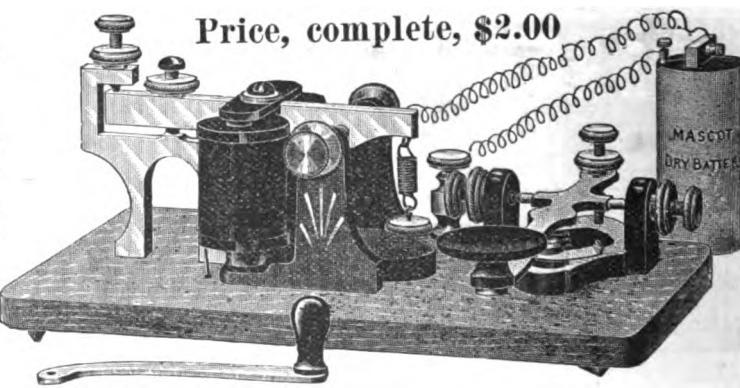

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

"Morse" Learners' Instrument without Battery, sent by mail, (Battery cannot be sent by mail.)	2.75

Instruction Book, Free.

Goods sent C. O. D. to points within 500 miles of New York, if one-third of the amount of the bill is sent with the order. Remit by Draft, Postal Money Order, or Registered Letter. Favorable arrangements made with agents everywhere.

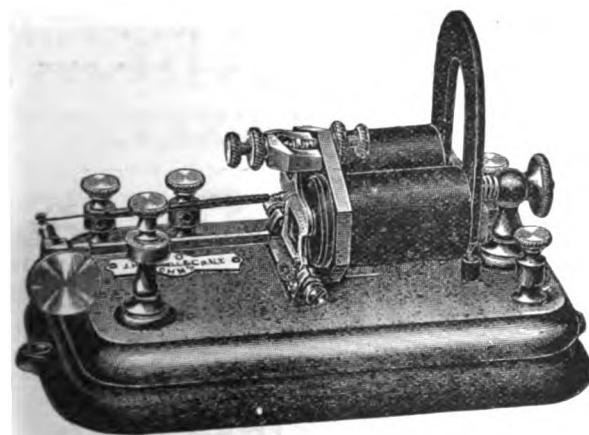

THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

is the latest and very best instrument of the kind ever offered. Price, \$10.00. 40 per cent. discount to Telegraphers. \$4.00 Net. Send for descriptive Circular and Dr. Wells' Electro-therapeutic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

FREE! COMPLETE INSTRUCTION IN TELEGRAPHY. If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

Special Railroad Relay.

under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement."

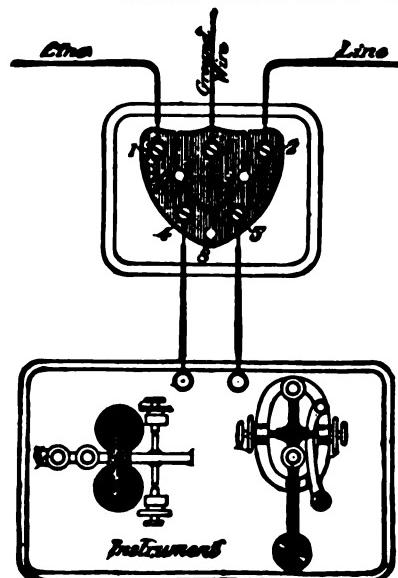

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 428 miles long. We have watched them carefully, and

The Union Lightning Arrester and Ground Switch.

As lightning is frequently attracted to outdoor lines and thereby enters the office, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our LATEST CATALOGUE, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the VERY BEST Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.

SPECIAL OFFER No. 1.

For 30 days only. We have the following special bargains for our Telegraph friends.

Our \$5.00 Globe Vapor Bicycle Lamp and 10,000 Mile Repeating Cyclometer (both articles), to any address, for only \$2.00 net cash. Don't delay your order as these goods will not last long at this price.

SPECIAL OFFER No. 2.

For 30 days only. Our No. 12 \$1.50 14k. Gold Pen, the best known and known to be the best Fountain Pen in the world, and our No. 4 \$1.00 Solid, all Agate Stylus, very handsome, perfectly smooth polish, (both articles) for only \$1.50 net cash.

If you are in need of the finest Fountain Pen and Stylus in the world, send your order at once.

These articles are the greatest bargains ever offered, and should be taken advantage of, as we will not be able to repeat them.

If you are not familiar with our goods write for Catalogue (enclosing 2c. stamp).

JOURNAL OF THE TELEGRAPH.

VOL. XXX.

NEW YORK, JUNE 20, 1897.

WHOLE NO. 528.

QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING JUNE 30TH, 1897.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, June 9th, 1897.

The following statement exhibits the condition of the Company at the close of the quarter ended March 31st, 1897:

Surplus January 1st, 1897, as per last Quarterly Report.....	\$7,906,041.49
Net revenues, quarter ended March 31st, 1897.....	1,089,588.29
	<hr/>
From which deducting for—	

Dividend of 1½ per cent. paid April 15th.....	\$1,191,965.00
Interest on bonded debt.....	328,571.90
Sinking funds.....	19,991.00
	<hr/>
Left a surplus April 1st, 1897.....	\$7,559,747.68

Surplus April 1st, 1897, as above	\$7,559,747.68
The net revenues of the quarter ending June 30th, instant, based upon nearly completed returns for April, partial returns for May and estimating the business for June, will be about.....	1,550,000.00
	<hr/>

From which appropriating for—	
Interest on bonds.....	\$228,975.00
Sinking funds.....	20,000.00
	<hr/>

Less	
Portion of Sinking Funds for the bonds of 1900 (which was set aside previously) returned to the Company by the Sinking Fund Trustees, because of the drawn bonds not being presented for redemption.....	40,000.00
	<hr/>
	203,875.00
	<hr/>
It requires for a dividend of 1½ per cent. on capital stock issued, about.....	1,816,975.00
	<hr/>

Deducting which leaves a surplus, after paying dividend, of.....	\$7,628,897.68
	<hr/>

The increase of \$25,000 in the amount required for the payment of a dividend of 1½ per cent. for the current quarter is caused by the issue and sale, duly authorized, of 20,000 shares of the unissued balance of 48,300 shares of the increase in the capital stock, authorized by the stockholders on October 12th, 1892. The proceeds of this sale have been applied to the account for the construction and acquirement of new lines and property (\$8,133,656.20), and the Chicago Building (\$1,666,212.50), covering the fiscal years 1893, 1894, 1895 and 1896, the cost thereof

having, as shown by the Annual Reports, exceeded the surplus earnings for those years by \$2,112,145.29.

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of July next, to stockholders of record at the close of the transfer books on the 19th day of June, instant.

Resolved, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 19th day of June, instant, and be reopened on the morning of the 1st day of July, next.

Respectfully submitted,

THOMAS T. ECKERT, President.

THE PARIS EXPOSITION OF 1900.

The Paris Exposition will open April 15 and will close November 5, 1900. Preparations are well advanced. The site will comprise the public grounds on both sides of the Seine from the Place de la Concorde, the great monumental square in the very centre of the city, to a point beyond the Pont d'Jéna, embracing the Champ de Mars, the Trocadéro Palace and park (site of the Exposition of 1889), the Esplanade des Invalides, the Quai d'Orsay, the Quai de la Conférence, the Cour la Reine, and a large section of the Champs Elysées, including the site of the Palais de l'Industrie, the great building erected for the International Exposition of 1855, the first of the series. No other city in the world contains, in its very centre, an equal area available for a great Exposition. Not only does this site leave nothing to be desired in point of convenience and accessibility, but divided as it is throughout its entire length by the Seine, winding between magnificent quays and bordered by stately edifices and historic monuments, it lends itself admirably to the works of decoration and embellishment in which the French people are past masters, and which are indispensable to a successful Exposition.

All the details of the architecture are not yet worked out. The unique palace of the Trocadéro, erected for the Exposition of 1878 and utilized a second time in 1889, will be used, as well as several of the great Exposition halls of 1889 in the Champ de Mars, but all of them will undergo more or less modification. The Eiffel Tower will be preserved, but it is probable that some new and striking feature will

be added to it. The Palais de l'Industrie, which housed the entire Exposition of 1855, and in which the annual salon of the Société des Artistes Français is held, will disappear, however, and on its site will be erected a magnificent edifice to serve as the Fine Arts Hall during the Exposition, and to remain as a permanent monument. Demolition is already in progress. To the west of the Fine Arts Hall, on the same side of the Champs Elysées, will rise the Hall of Liberal Arts, which is also to be a stately and permanent edifice. Between these great buildings will be constructed a broad avenue extending from the Champs Elysées to the Seine, at the point where a magnificent bridge is being constructed, named after Alexander III., Emperor of Russia, by whose son, the present Emperor, the cornerstone was laid, with imposing ceremonies, during his recent visit to Paris. This bridge will have a pronounced artistic character, and, with the projected avenue, will connect the Champs Elysées and the Esplanade des Invalides, adding a new and impressive vista to the charms of the famous Parisian avenue, with the stately golden dome which crowns the tomb of the great Napoleon in the background.

Consul General Samuel E. Morss writes from Paris that the Exposition will offer rare opportunities for American artists, inventors, manufacturers and workers in every field of human effort to illustrate once more to the world the vastness of our resources, the superiority of many of our industrial implements and processes, and the variety and excellence of our productions. It is hoped that American manufacturers and producers in all lines will be fully represented.

The classification of "Group No. 5, Electricity," is as follows:

Production and mechanical utilization of electricity.

Chemical electricity.

Electric lighting.

Telegraphy and Telephones.

Different applications of electricity.

Electric railways come under the heading of "Tramways," in the transportation group.—*Electrical Review.*

ACCORDING to a Swiss engineering journal there are now in Switzerland 525 passenger cars which are lit electrically, and the number is continually increasing. On some lines all the trains are to be equipped with this system and on some of the others it is introduced on all the new cars.—*El. World.*

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

NEW YORK, JUNE 20, 1897

September 1, 1895.

TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,
President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate"

should also be taken credit for in, and turned in with, the monthly Form No. 4. Report.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1891) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (Form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to \$10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over \$10.00 to \$20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over \$20.00 to \$50.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.
Over \$50.00 to \$100.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

Seventh. The small treasurer's envelope, Form 128, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Much Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

R. H. ROCHESTER, Treasurer.

A MESSAGE sent "collect," reported as "un collectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, June 20, 1897.

We are requested by the receiver of the Wheeling and Lake Erie Railroad Company to take up, if presented, business franks issued on its account, numbered Q 734 and R 960.

Managers will please comply with this request and return the franks to this office for cancellation.

JNO. VAN HORNE,
Vice-President.

TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

At a special meeting of the Executive Committee of Telegraphers' Mutual Benefit Association held May 24, 1897, the resignation of Mr. T. E. Fleming as Secretary of the Association was read and, on motion, accepted; and the following resolution was unanimously adopted:

Resolved, that the resignation of Mr. Fleming as Secretary of the Association be accepted, to take effect June 1st; and that in accepting his resignation, this Committee desires to record on the minutes of the Association its regret at losing his services, which have been eminently acceptable and satisfactory to the Committee and to the membership at large. That while the members of the committee are sorry to lose the services of so valuable an officer, they at the same time rejoice with and congratulate him upon his advancement in other fields, and wish him all the success which his abilities and energetic qualities deserve.

Resolved, further, that a copy of this resolution, signed by the members of the Committee, be presented to Mr. Fleming upon his retirement from office.

On motion, Mr. M. J. O'Leary was appointed Secretary of the Association, to date from June 1st.

All official communications should be addressed: Telegraphers' Mutual Benefit Association, M. J. O'Leary, Secretary, and in making remittances, have all drafts, checks and money orders made payable to the order of the Association as directed on remittance forms.

Mr. O'Leary has been connected with the Cable Service of the Western Union Telegraph Company for the past fifteen years, and for twelve years a member of the Auditing Committee of the T. M. B. A., as well as prominently identified with many other telegraph societies.

TESLA'S NEW DISCOVERIES.

GREAT ACHIEVEMENTS ANNOUNCED TO THE ACADEMY OF SCIENCE.

ONE WILL REVOLUTIONIZE THE METHODS OF ELECTRIC LIGHTING, AND ONE, HE PROMISED, WILL RESULT ULTIMATELY IN TELEGRAPHING WITHOUT WIRES—ROENTGEN RAYS ARE LENNARD RAYS.

AFTER many months of silence, Nikola Tesla spoke night before last at the Academy of Science, and, as always happens on such occasions, the scientific knowledge of the world was the richer thereby. Mr. Tesla, without going deeply into the details of his methods, announced three discoveries that he has made and gave practical illustrations of them. One will revolutionize the present methods of electric lighting, will exert a tremendous influence upon a hundred different things, and will open to the investigator an infinite number of highways of research, and will end, Mr. Tesla says, in bringing about that sought for end of all electricians, the transmission of information through space without the agency of wires now needed. The second discovery announced was that of a new and more powerful source of the Roentgen rays. The third, and Mr. Tesla says this will be the most important and interesting to scientists, is the identification of the Roentgen with the Lennard rays.

Mr. Tesla exhibited on Tuesday night a new and perfect apparatus which he called electrical oscillators, a novel kind of transformers based upon a discovery made by him six years ago which enabled him to produce from ordinary currents, direct or alternating, electrical vibrations of many millions per second. These vibrations were desirable for the attainment of many practical results, the most important being the present system of lighting. This system is inefficient and expensive, and to produce the same or better results upon lines of economy requires enormous electrical vibrations, which Mr. Tesla has been able to secure by his new apparatus. By the use of these vibrations a vacuum tube may be made to emit a powerful light and furnish a lamp that is practically indestructible.

This bare statement of fact is all that Mr. Tesla is willing to give to the public at the present time, for he has not yet explained his methods to the scientific world, but his demonstration of his discovery at the Academy of Science was most complete. Its importance, as can be easily seen, hardly can be exaggerated.

These vibrations can be used in many other ways for the economical production of things necessary to mankind. Besides the lighting problem there are others that require extraordinarily frequent vibrations for their economical solution. Mr. Tesla announces that the manufacture of ozone and other chemical products now attained by costly processes may be done economically and cheaply by these vibrations. Mr. Tesla announced not long ago that by the use of these currents it was possible to manufacture fertilizers by using no other agent than merely mechanical power such as a waterfall or steam.

The use of these currents in the transmission of power is also very probable. Mr. Tesla has worked on this principle a large part of the time since he made his announcement before the Scientific Societies in 1891, and, as he said on

Tuesday night, the machine he exhibited before the Academy of Sciences was the consummation of his labors in this direction. He said it furnished an ideal instrument for the production of the Roentgen rays, and what renders it particularly valuable is that it can be attached to any circuit and will furnish high economies. Its advent means the abolition of many devices of older design, particularly, Mr. Tesla said, of the use of the induction coil. A remarkable feature of the machine Mr. Tesla exhibited was that, although it can furnish any pressure desired, it contains no fine wire, and he illustrated by a simple experiment the advantage of the new principle over the old. The coils of the older principle require several miles of fine wire to develop a pressure equivalent to that developed by Mr. Tesla's machine that has none.

Coming to the subject of the Roentgen rays, Mr. Tesla announced that he had made two important discoveries. The first is a powerful source in an electric arc under certain conditions. This opens up a new field for research, and is most promising, as the rays obtained are very powerful and produce clearer images than those produced by present methods. The second and the one Mr. Tesla places in importance above the other is the demonstration in a peculiar way, which he described, of the deflection of the rays by a magnet. The discovery is particularly important in that this fact was needed to establish the identity of the Roentgen ray and the ray discovered by Lennard in 1891. Through this discovery Lennard appears as the original discoverer of these rays, although in his address on Tuesday night Mr. Tesla said that he did not want to take from Prof. Roentgen the least bit of credit for his remarkable achievement in this line. Mr. Tesla said that in 1894 he himself was investigating the actinic action of phosphorescent bodies and observed the Roentgen rays, but did not recognize them. He said that ever since Roentgen's announcement of his discovery scientists have been endeavoring to establish the identity between the Roentgen and Lennard rays by deflecting them by a magnet. The deflection, however, was so slight that the finest instruments could not record it. Mr. Tesla tried for a long time and failed. At last he invented an instrument that accumulated the rays until he got such a power that a boy could perform the experiment.

Besides the things already referred to, Mr. Tesla showed diagrams and designs tending to prove his theory that Roentgen rays were formed by streams of minute electrified particles of matter projected from the bulb at an extreme velocity. This view is not in accordance with that adopted by the great majority of scientists, which is that the rays are formed by transverse vibration. Prof. Roentgen's theory is that they are formed by longitudinal vibration.

Mr. Tesla promised that the tremendous vibration established by him would ultimately result in telegraphing without wires.—*N. Y. Sun.*

THE LAUGHLIN PEN.

The Laughlin Pen, manufactured by the Laughlin Manufacturing Co., Detroit, Mich., has been in use in our office for some years, and is a superior article. They are guaranteed to give entire satisfaction, or money will be refunded.

The Company desires to have an agent in each town.

TARIFF BUREAU.**MONTHLY CIRCULAR.**

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, August 20, 1897.

This JOURNAL should be carefully preserved for future reference, as list of Mexican stations and instructions therefor, will not be republished.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **[E]** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Wildwood, N. J., which was formerly a double star station, but which is now a Western Union office in Square 53.

NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 418) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 418) it is required that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word.

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a num-

ber of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 208). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

(Continued on page 100.)

M E X I C O .

August 1, 1897, the Tariff Book rates to offices in Mexico will be discontinued, and on and after that date—with certain exceptions given in a "Supplementary List" hereafter—the rates to offices in Mexico will be the State rates given in the columns to the right of the names in the list below. All messages to or from these places will be checked with "Mexico Junction, Tex.", and the full tolls on each message will be entered as if all for "this" line against "Mexico Junction, Tex." There will be no division of the tolls into "this" and "other" lines, nor—except as noted hereinafter—will messages be checked against the various connecting offices as at present.

To the places in the list marked with asterisks, messages may be sent *via*, and checked with "Mexico Junction" at the State rates; but they may also be sent via and checked as ordinary "other" line offices at the rates for "other" lines given in the Supplementary List. These are the exceptions noted in the above paragraph of instructions. The asterisks refer to the Supplementary List.

"Collect" messages may be accepted *via* "Mexico Junction" to Tampico, Vera Cruz and Mexico City, but such messages, whether answers or not, must in each case be guaranteed. Messages for all other places in Mexico, *via* "Mexico Junction" must be prepaid.

Night rate messages should not be accepted for places in Mexico.

In all other respects, the rules which apply to messages between Western Union offices will apply to messages to and from Mexico.

Messages to Mexico, offered by holders of Western Union Franks, will, if sent via "Mexico Junction," be charged for at the State rates, less present rates to Galveston; but if sent to places, and via the routes named in the Supplementary List, then only the "other" line rate will be charged.

Service messages in regard to messages to or from Mexico, *via* "Mexico Junction," should be addressed to Galveston, Tex.

SUPPLEMENTARY LIST

Places in Mexico to which messages may be sent as ordinary "other" line messages at the rate for "other" lines given herewith. If these routes and rates be used, messages should be checked accordingly.

Except for night messages, which are not allowed, the rules which govern Western Union messages will apply for messages *via* these routes from place of origin to destination.

United States Government messages to Mexico *via* these routes should be charged full rates for "other" lines.

- * Ahumada, 33 3 El Paso, Tex.

CABLES.

For Rule 5 on page 416 of the Tariff Book, the following should be substituted, to take effect immediately:

RULE 5.—In the address of any message, the name of the office of destination, the name of the country, and the name of the territorial sub-division, are counted respectively as one word, no matter how many letters are employed.

Correct Tariff Book, page 430.

Cuba : An asterisk should be entered after Puerto Príncipe. Messages for that place are now posted at Santiago.

The following changes in cable rates are now in force.

Correct Tariff Book pages 434 to 482, inclusive.

SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 419 to 484, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 867 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,
President.

TRANSFER SERVICE.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, August 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Beatrice, Neb., and temporarily discontinued at Orlando, Fla., Valdosta, Ga., and Yankton, So. Dak.

On August 16th, Hot Springs, Ark., was advanced from Class D to Class C.

On September 1st, Boulder, Col., will be added to the list of Class D, transfer offices, in J. J. Dickey's district, and on same date, Sumter, S. C., will be added to the list of Class E, transfer offices, in J. A. Brenner's district.

Managers will correct their lists accordingly.

THOS. T. ECKERT,
President.

ELECTRIC POWER AT RICHMOND, VA.

A PROJECT for utilizing the immense water power at Richmond, Va., for the production of electricity is now assuming definite shape. It is believed that when the enterprise is established it will do more for the material development of Richmond than all the other enterprises attempted. There is more than 10,000 undeveloped horse power in the James River at this point, which if converted into electric power would be of great benefit, not only to present manufacturers, but would also tend to bring other manufacturers to the city.—Sci. Am.

ELECTRIC CELEBRATION IN MAINE.

THE celebration of the invention of the electric motor car was held on July 26, at E. I. Iott, Me., in connection with the summer meeting of the American Institute of Electrical Engineers. The celebration was in honor of Prof. Moses G. Farmer, who on July 26, 1847, exhibited in Dover, N. H., what was considered the first electric car. The exercises included an interesting exhibit of early apparatus, and addresses by Professors Dolbear, Barker, Duncan, Pupin, etc.—Sci. Am.

COUNTING AND TYING POSTAL CARDS.

Two of the most interesting automata now working within the limits of the United States are those used by the government for counting and tying postal cards into small bundles. These machines were made in Connecticut, and the two are capable of counting 500,000 cards in ten hours and wrapping and tying the same in packages of twenty-five each. In this operation the paper is pulled off a drum by two long "fingers," which come up from below, and another finger dips in a vat of mucilage and applies itself to the wrapping paper in exactly the right spot. Other parts of the machine twine the paper around the pack of cards, and then a "thumb" presses over the spot where the mucilage is, and the package is thrown upon a carry belt ready for delivery.—*The Argosy.*

IT was announced recently, says the Electrical Review, that the National Museum, at Washington, D. C., had secured the famous Cyrus W. Field collection of documents, autographs, telegrams and cablegrams relating to the first Atlantic cable. It has been donated by Mrs. Isabella Field Judson, of Dobbs Ferry, N. Y., and is being arranged for exhibition by Prof. Maynard. The journal kept by Mr. Field, and the notes of deep sea soundings made by him and the officers of the Great Eastern, are part of the collection. Mr. Field's private library forms another part of it. There are also copies of medals presented to him by Congress and the French government, engraved resolutions passed by members of bodies in this country and Europe, a cane made from the wood of the Great Eastern, cases containing sections of the first cable, and those evolved from it, and the globe used by Mr. Field while working out his plants.

TRIAL OF A SEXTUPLEX TELEGRAPH SYSTEM.

A SEXTUPLEX telegraphic system was successfully operated at Boston, August 2, in the presence of representatives of New York and Boston newspapers. The circuit was to New Haven and return, a distance of three hundred miles. Three different messages were sent over the wire simultaneously, and were easily and accurately received on the receiving sides.

The inventor is Thomas B. Dixon, of Kentucky, son of the late Archibald Dixon, once a Senator of that State. He is a practical telegrapher.

"Other experimenters," said Mr. Dixon, "have pursued one of two methods—either they have used a vibratory current or else have subdivided the current into more than two parts. I have virtually a combination of a quadruplex and duplex wire. I send two messages over one-half of the current as a quadruplex, say at 100 volts, and the third message over the other half as a duplex, by increment—by making the current 300 volts. The great gain is in the saving of wire. We can work the sextuplex with the same current that is used on the quadruplex. We have used one quadruplex over thirteen hundred miles of wire on about two-thirds the current commonly employed. Both quadruplex and sextuplex have been used in all kinds of weather, and they do excellent work. The tests have all been made through a district where the wires were exposed to induction. The thirteen-hundred mile test was on a wire that ran from Boston to Buffalo, then back to Boston; then to New Haven and back to Boston again."—*Sci. Am.*

SUMMER PRICES

SOUNDER AND KEY AS ILLUSTRATED ABOVE, \$2.00.

We have purchased the entire stock of telegraph instruments, and about 75% of the entire stock from the assignee of the late E. S. Greeley & Co. The above **FIRST CLASS** Sounder is from this stock. The key is our own make. Only about 300 of these sets at above price.

WE HAVE about 200 brass lever keys that are shelf worn but in good condition, at **50 CENTS.**

Box Relays, 150 ohms, with Victor Keys, **\$4.00.**

Box Relays, 150 ohms, no keys, **\$3.00.**

Standard Relays, 150 ohms, **\$3.00.**

Telegraph Switches, 60% off Greeley Catalogue list.

Ludwig Mechanical Telegraph Instruments, **50 CENTS.**

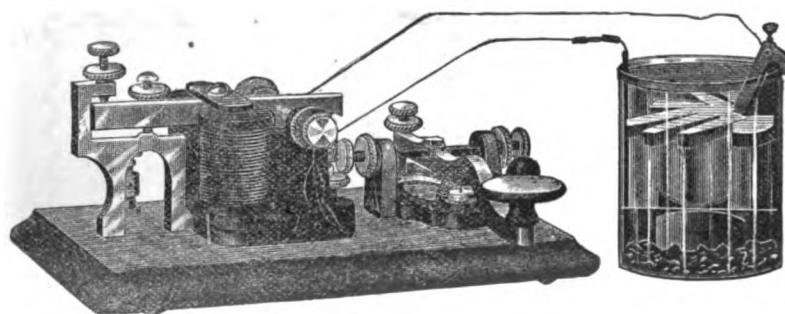

We can supply nearly all the goods illustrated in the Greeley catalogue at very low prices.

WATCH THIS PAPER or send to us for bargain lists. Our regular stock of electrical supplies is sold on small margin of profit.

EUREKA TELEGRAPH OUTFIT

Outfit Complete With Battery, **\$2.25.**

(Without Battery, **\$1.75.**)

The Eureka Instrument with **MESCO** Dry Battery for home practice, **\$1.95.**

DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

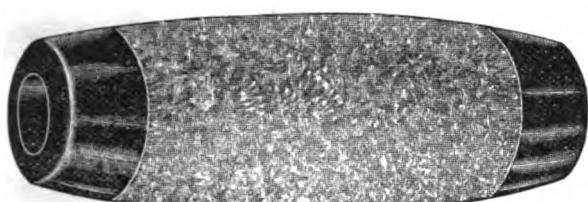

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines.....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

MANHATTAN ELECTRICAL SUPPLY CO.
32 CORTLANDT STREET, NEW YORK.

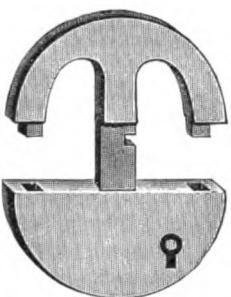

BICYCLE SUNDRIES AT POPULAR PRICES.

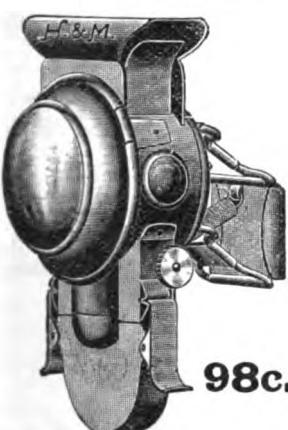

Corkeline Grips.— $\frac{3}{4}$ and $\frac{5}{8}$ paper lined. Black or maroon composition ends. Postage, 5 cents. Price, 15 cents per pair.

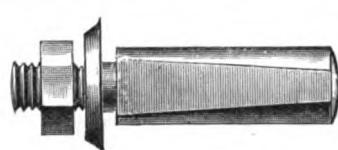

Acme Lamp Bracket.
Nickel-plated. Attaches to right or left side.
Postage, 2 cents.
Price, 5 cents each.

Double Sprocket Lock.
Makes locking doubly secure.
Brass, nickel-plated.
Postage, 5 cents.
Price, 20 cents each

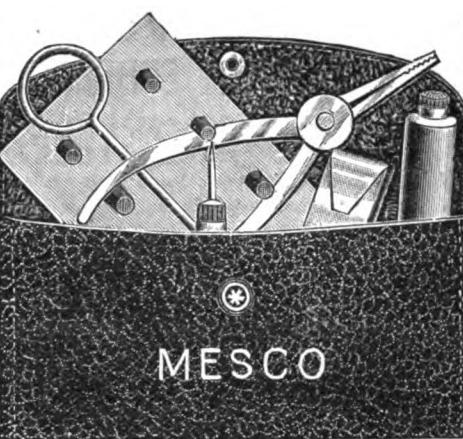

H. & M. Lamp.—Made on an entirely new principle, detachable oil w.-ll. colored side lights, full nickelized.
Postage, 15 cents.
Price, 98 cents each.

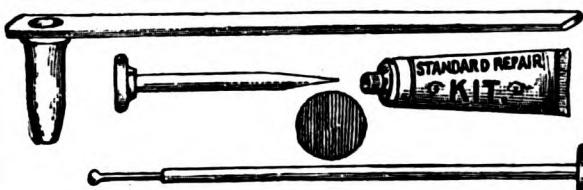

Cotter Pins.—Nut and Washer all nickel-plated.
Postage, 1 cent.
Price, 10 cents each.

Ajax Coasters.—Will fit any fork.
Made of steel, nickel-plated.
Postage, 3 cents.
Price, 20 cents per pair.

Mesco.—A complete outfit for single-tube or hose pipe tires. Contains an assortment of plugs, tube of rubber solution with cementing nozzle, pair of steel pliers, package tire tape, puncture rod, etc., in fine leather case.
Price, 25 cents each.

Standard Repair Kit.—For single tube or hose-pipe tires. One of the simplest yet most practical kits on the market. Punctures can be instantly repaired. Put up in a neat box. Illustrations demonstrate method of operating. Postage 5 cents. Price, 25 cents, set complete.

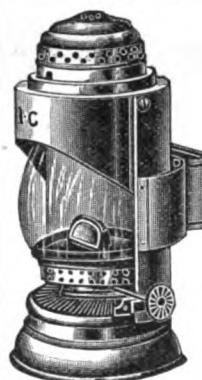

L. A. W. Sprocket Lock.
Aluminum shackle, tumbler combination.
Postage, 5 cents.
Price, 60 cents each.

MANHATTAN SINGLE-TUBE TIRES.
 $1\frac{5}{8} \times 28$.
This tire is made from the very best Para Rubber and Sea Island Cotton. Light, strong and serviceable. Made in both rough and smooth tread. We supply a pump and Cox's repair kit with each pair.
Price, \$6.00 per pair, not mailable.

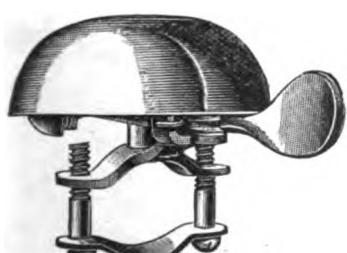

American 10,000 Mile Cyclometer.
Perfect accuracy. Does not get out of order, and every one guaranteed. Made for 24, 26 and 28-inch wheels.
Postage, 5 cents.
Price, 30 cents each.

I. C. Lamp.—The latest and best low-price lamp on the market. Automatic lamp wick. Simple, practical and durable. Easily taken apart. All parts riveted. All brass, nickel-plated, highly polished. Postage, 10 cents.
Price, \$1.00 each.

Mesco Foot Pump.
Built for service. Steel foot rest. Nickel barrel, $1\frac{1}{4} \times 12$ inches. Universal Nipple with K connection.
Postage, 25 cents.
Price, 35 cents.

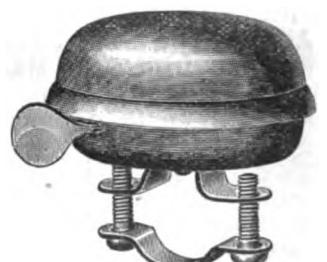

O. K. Bell.—Single stroke. Cast gong. Weight, $2\frac{1}{4}$ ounces. $1\frac{1}{4}$ inches in diameter. Postage, 4 cents.
Price, 15 cents each.

Meteor Hand Pump.—Single action. Barrel, $\frac{3}{8} \times 5$ inches. Fully nickelized. Fits any tool bag. Postage, 6 cents. Price, 18 cents each.

Rubber Hoods.—Protect lamp from rain, dust, etc., and always keep the lamp bright. Made for all styles of lamps. Mention style of lamp when ordering. Price, 25 cents each, prepaid.

No. 225. Double Stroke.—Size, $2\frac{1}{4}$ inches. Weight, $4\frac{1}{4}$ ounces. Postage, 6 cents. Price, 25 cents each.

THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

THE BUNNELL STEEL LEVER KEY is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

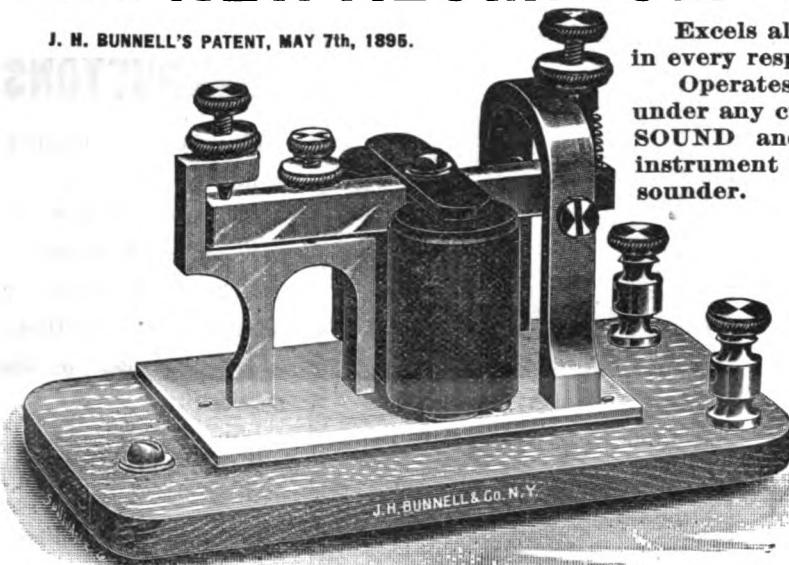

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platinum points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT. \$4.75.

The New Departure Learners' Outfit....**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically, can be obtained at all hardware and electrical supply stores for 50 cents or less.

Send for Catalogues, Circulars, Etc., of all the above to

THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-therapeutic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

FREE! COMPLETE INSTRUCTION IN TELEGRAPHY. If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

Special Railroad Relay.

under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 160-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement."

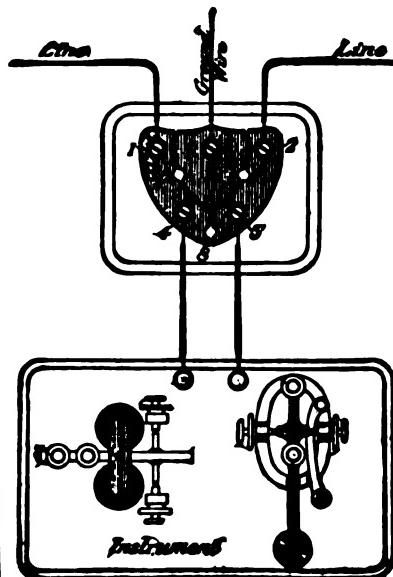

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 160-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 160 miles, with 39 offices, and on our through wire, 420 miles long. We have watched them carefully, and

The Union Lightning Arrester and Ground Switch.

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut-out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our LATEST CATALOGUE, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the VERY BEST Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.

NEW YORK, JANUARY 20, 1898

All remittances by Western Union Superintendents, Managers and Cashiers heretofore made to R. H. Rochester, Treasurer, New York, should until further notice be made and be made payable to M. T. Wilbur, Assistant Treasurer, New York:

September 1, 1895.

To ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,
President and General Manager.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the *War Department—Official Telegram* form (on blue paper, and certified as on *Official Business* by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, November 20, 1897.

NOTICE TO MANAGERS OF WESTERN UNION AND INTERNATIONAL OCEAN TELEGRAPH COMPANIES OFFICES.

ATTENTION is called to the growing improper practice of checking "Collect," messages which are answers to free messages received. Such answers should be checked "D. H. ans. to D. H." When checked "Collect," payment is refused by the Receivers, on the ground that they are answers, and should be charged to their franks; thereby causing extra trouble to the delivery office, and confusion in book-keeping, and making up the monthly Paid and Free Reports.

THOS. T. ECKERT,
President and General Manager.

NEW YORK, March 20, 1897.

To all Western Union Managers:

The attention of managers is called to the necessity for insisting upon the requirement of Rule 4, that all unpronounceable groups of letters shall be counted one word for each letter. Some senders of messages claim that such groups as *Cpr*, *Chd*, *Wes*, which are combinations of the initials of the names of firms or corporations, shall be counted as one word each.

These claims cannot be admitted, and each letter in such combinations must be counted as one word.

THOS. T. ECKERT,
President and General Manager.

ELECTRICAL PROGRESS IN THE LAST DECADE.

An article which has not yet received as much attention as it deserves is the review of electrical advance in the past ten years, contributed to the *Forum* by Mr. Elihu Thomson, the well-known inventor. Few people realize the extent and range of the applications of electricity to useful purposes which have been made since 1887.

It is pointed out, for instance, by Mr. Thomson that, at a convention of street railway men held in the year named, the discussion of expediency of substituting electric traction for horse power was criticised as a waste of time. A convention of the same association in the present year took for granted the universal applicability of electricity to street car propulsion. The prospect now is that, in the course of a few years, the cruelties of horse traction on city railways will exist only in remembrance. Electric traction has given greater speed and better cars, which, moreover, are lighted and heated electrically, the result being an amount of cleanliness and comfort not otherwise obtainable. Electricity seems also destined, at no distant day, to revolutionize passenger traffic on the trunk lines connecting large centres of population.

The facility with which electric service may be superposed on roads originally intended for steam traction has been demonstrated by a conspicuous railway organization. It has been shown that single cars may be propelled at high speed with comparative safety. Even sixty miles an hour has been exceeded. It has further been proved by the construction of several huge electric locomotives for the Baltimore and Ohio Railroad that such machinery can haul the heaviest train loads, and more than equal in power locomotives worked by steam. Mr. Thomson has no doubt that the latter will, eventually, be supplanted by electric motors driving the axles of the cars, as in street railway service. Cheap fuel can be used to generate the power in the electric stations, and water power, where it is available within thirty or forty miles, may be transmitted to the railway line. In a word, the foundations of the railway practice of twenty years hence are being laid to-day.

If we look back ten years we find that, although telephone exchange systems were then already in existence, there were virtually no long distance extensions. To render the latter practicable the lines have to be made of heavy copper wire, the wire of course, becoming thicker in proportion to the distance to be covered. It follows that the cost of the copper required becomes very heavy for great distances, over a million pounds of copper being needed for a single circuit from Boston to Chicago.

Prior to 1887, only the largest cities possessed any electric lighting service; the alternating current, which is now so large a factor in electrical enterprises, had scarcely begun to be used. At present, even the smaller towns have their electrical stations,

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, December 20, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand ~~(S)~~ indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Vanndale, Ark., which was formerly a three star station, but which is now a Western Union office in Square 432.

NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July, 1897, should receive careful attention, particularly the changes referred to in the following, viz.:

In rule 2 (page 413) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 413) it is required that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word.

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

CABLES.

For Rule 5 on page 414 of the Tariff Book, the following should be substituted, to take effect immediately:
 RULE 5.—In the address of any message, the name of the office of destination, the name of the country, and the name of the territorial subdivision, are counted respectively as one word, no matter how many letters are employed.

Correct Tariff Book, page 430.

Ooba : An asterisk should be entered after Puerto Principe. Messages for that place are now posted at Santiago.

The following changes in cable rates are now in force.
 Correct Tariff Book pages 626 to 630, inclusive.

A cable has been laid from Guadalupe to the Island of Les Saintes in the West Indies. Rate to Les Saintes same as to Guadalupe.

SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 208). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show first the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated

changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

THOMAS T. ECKERT,

President.

TRANSFER SERVICE.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, December 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Muncie, Ind., and temporarily discontinued at Mackinac Island, Mich.

The transfer service was temporarily discontinued at Huntington, W. Va., on November 28d, at Mattoon, Ill., on December 3d, at Winona, Miss., on November 18th, and resumed as follows: at Huntington, W. Va., on December 7th, at Mattoon, Ill., on December 10th at Winona, Miss., on December 8d.

On December 15th, Green Bay, Wis., was advanced from Class D, to Class C, transfer office.

Managers will correct their lists accordingly. The second section of Rule 25 of the money transfer service is hereby modified to read as follows:

"The transfer service will be suspended at all offices on Sundays and all National Holidays, viz.:

January 1st, February 22d, May 30th, July 4th, Thanksgiving day and Christmas day.

On any State holiday, transfers for offices in the State in which such holiday occurs will be accepted subject to delay, the words 'accepted subject to delay' being stamped or written upon the application for transfer and receipt for deposit, Forms 72 and 78."

The third section of Rule 42 of the money transfer service is hereby modified to read as follows:

"Printed lists of State holidays can be obtained from the Treasurer upon written application. In case of any changes or additions to such State holidays, Transfer Agents will notify the Treasurer in advance of such changes or additions in their respective States, in order that other Transfer Agents and offices may be duly notified thereof."

THOS. T. ECKERT,
President.

TO OPERATORS AND AGENTS.

Send me 10 cents for twenty or 20 cents for fifty cards with your name, address and employment printed upon them. Good white envelopes with your card printed in the corner, 10 cents per hundred.

NEW COMBINATION

PORTABLE CALL-BELL OUTFIT AND CLOCK ALARM ATTACHMENT.

As a portable call-bell outfit it can be used in the sick-room by hanging the bell and battery outside the room and placing pear-push on the bed. It can also be used in the dining-room, or other parts of the house, or in offices for calling attendants.

We supply six yards of double flexible conducting cord with each outfit; if more is required, the cost will be six cents per yard extra. The chain clamp can be attached to the alarm, winding-key of any style, or make of mechanical alarm clock, and the electric bell will ring continuously from the time mechanical alarm goes off until the clamp is detached from the key.

PRICE, EACH, - - - \$1.00.

NEW No. 4 HOME MEDICAL APPARATUS**WITH DRY BATTERY.**

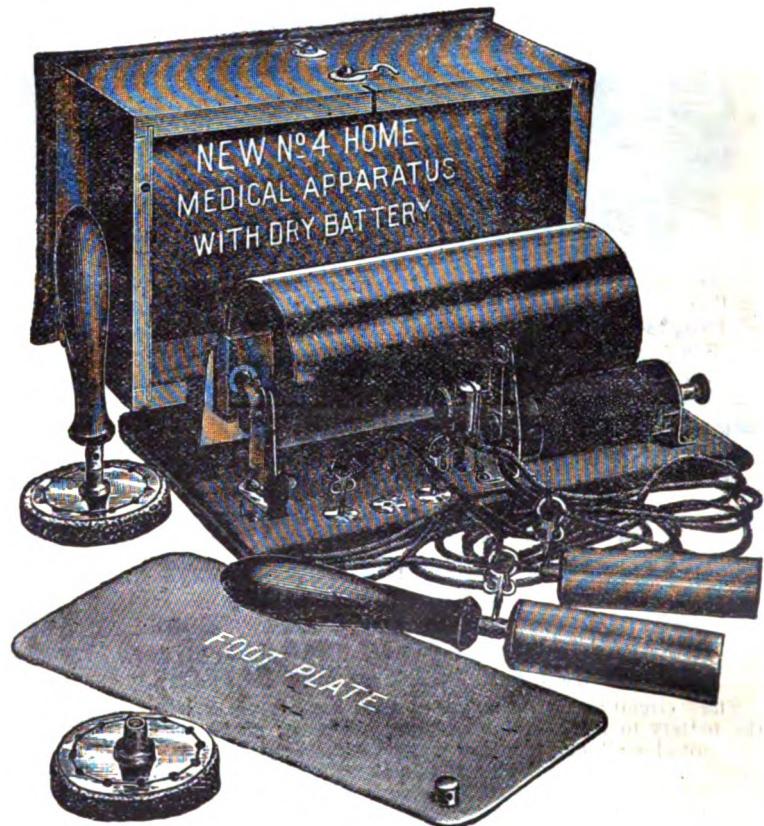

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany case, having a strong, handy, nickel-plated handle. The dimensions of the case are 9 x 5½ x 4½ inches, and its weight, complete with Cell and Electrodes is about 5½ pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

PRICE, EACH COMPLETE, \$3.00.

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

Manhattan Electrical Supply Co., 32 Cortlandt St., New York.

**J. H. BUNNELL & CO.'S
STEEL LEVER KEYS.**

PRICE,
1.75.

OVER 100,000 NOW IN USE.
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

THE BUNNELL STEEL LEVER KEY is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platinum points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

* Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

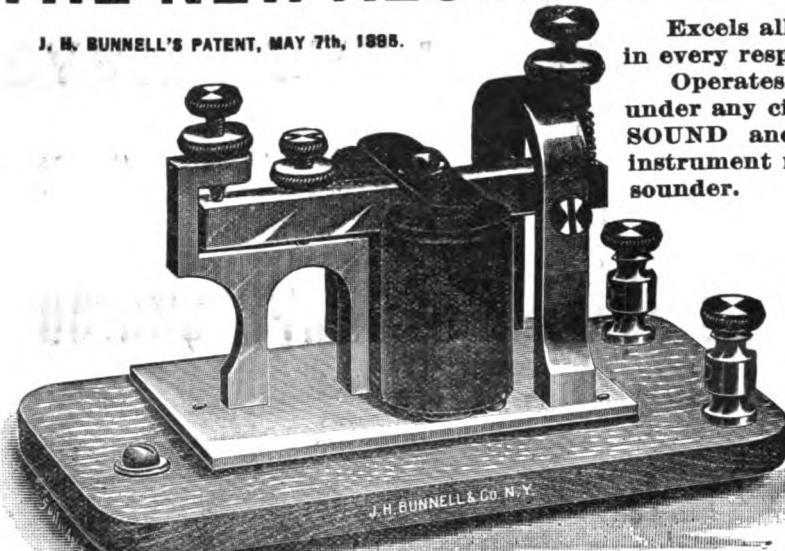

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1885.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY

COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

The New Departure Learners' Outfit....

WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which is heavy for mailing economically, can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

JOURNAL OF THE TELEGRAPH.

VOL. XXXI.

NEW YORK, MAY 20, 1898.

WHOLE NO. 539.

THE TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

UNDER the caption "The Public Demands Security," the *Keystone Workman*, a journal devoted to the interests of the Ancient Order of United Workmen, calls attention to the fact that the public has become educated in the business of fraternal life insurance to such an extent that it demands a system of protection that presents as a basis a recognized standard of perpetuity, and that only the organization that in its inception, or in the early days of its existence, recognizes the immutable laws of mortality and adequately provides therefor, will live and prosper.

Thirty years ago, when the foundations of the Telegraphers' Mutual Benefit Association were laid by such well known telegraph men as Hon. J. D. Reid, D. R. Downer, A. S. Brown, and more than 120 others, the principles of fraternal life insurance were but little known or understood, but after a few years it became apparent to the officers and executive committee of the youthful Association that the seed sown by them would bear abundant fruit, and that the Association was destined to occupy a foremost place among the societies and associations in the United States, and that to enable it to occupy that place with credit it was necessary to husband, and, as it were, to develop its resources, it was early seen that, unless adequate provision was made for the immutable laws of mortality, the Association, like hundreds of others who have since fallen by the wayside, was destined to perish from the earth. To this end, the Reserve Fund was created in 1875, and since then has been carefully nurtured by successive presidents and committees until it has attained its present magnificent proportions of \$141,000, upwards of three per cent. of the total insurance in force; an amount equal to \$30 for each \$1,000 benefit certificate; equivalent to monthly assessments of \$1 each, paid in advance for two years and a half; a larger proportion of assets to liabilities than can be shown by any similar organization.

This is the hostage the Telegraphers' Mutual Benefit Association offers to its future—this is the security which it offers to the young men and women in the telegraph business to join in membership, and so long as membership is retained and the reasonable requirements of the Constitution and By-Laws observed, whether their lives be cut off, more or less prematurely by any of the many ills that beset humanity, or prolonged to their utmost span, that the full payment of the amount accruing under the benefit certificate is assured to their families or heirs.

The Association is desirous that every eligible person should partake of its advantages, and it has upwards of 100 agents scattered in principal cities of United States and Canada, any one of whom will

gladly furnish application blanks, etc., or same can be had direct from the Secretary, P. O. Box 510, New York City.

The Western Union Cable Office in Key West has been the most interesting spot on the island since the war began. The most important man is the censor. One naturally comes to associate the two together.

The cable office is a small brick building, two stories high, with a large cocoanut palm growing on either side. The palms spread their great branches above the building and form a perfect arch over the red-tiled roof. Great clusters of cocoanuts are suspended from the green arch. It is only a few yards from the door of the cable office to the government dock. In fact, it is only a few yards from any point on the island to the water, and when the tide is at the highest point, the sea sets back through most of the streets, and leaves a white fringe of salt along the gutters when the tide goes out and the salt-soaked earth dries.

Up through the narrow street which leads from the cable office to the wharf, some very interesting and exciting races have taken place during the past few weeks. When the newspaper dispatch boats come in from the gulf, they always land as near to the cable office as possible, and when correspondents land at the same time, the race for the cable office is more interesting than any steeplechase ever run. Some of them, after a long cruise, go staggering and reeling on their sea legs like drunken men. Others are weak from seasickness, and still others are limping from bruises received from being pitched about in the rough sea. But sickness and bruises are forgotten when land is reached, and every effort is put forth to be the first to file copy.

If it be late at night five seconds gained in the race from the dock to the cable office may mean an exclusive story for one of the great dailies in the North. Cable transmission is necessarily slower than sending over land wires, and the correspondent who files 3,000 words at midnight is pretty sure that no other paper will be able to get anything for its morning edition from Key West that night.

But after the copy has been filed the correspondent's trouble is not at an end. Every word of it must be read and passed upon by the censor. No matter how much time, hardship or expense it has required to get the story, if, in the judgment of the censor, it not ought to be printed, it cannot be sent.

If it gives any information as to the movements of the fleet or the army it cannot go.

There are something like one hundred and fifty newspaper correspondents in Key West, and while most of them appreciate the wisdom of the government censorship of news matter, some have grown impatient in their eagerness to tell the interesting stories that are to be told, and have tried all manner

of ingenious schemes for getting matters past the censor. Usually, however, all plans have been detected by the censor, and the apparently innocent or stupid dispatch has been returned to the writer with "No" written in red ink across it.

The most trying period of the correspondents was on the day the fleet started on its cruise eastward.

Every correspondent in Key West knew that the great battleships were steaming away from here for Havana in quest of big Spanish game. Every newspaper man was eager to send the story, but not a line, not a word would the censor permit to pass. From a hundred papers in the North came the query, "Has the fleet started?"

Even the answer "yes" to this inquiry was not permitted to go.

Some of the correspondents had arranged a cipher code with their home offices, but the code was useless. Everything that had the appearance of cipher—everything that was not absolutely plain and explainable—was stopped. One correspondent worked out a plan which he thought would give the desired information to his paper, but he failed. Early in the morning he filed a dispatch, the first line reading as follows: "The newspaper fleet sailed this morning toward Porto Rico." An hour later he went to file a personal message to his editor reading: "Correction—omit second word in last dispatch."

When he handed in the last message the censor met him at the receiving desk, and with a kindly smile handed back the first dispatch with these words written across it: "All fleets look alike to me."

The Seventeenth Annual meeting of the Association of Railway Telegraph Superintendents will convene at the Hotel Dellone, Omaha, Nebraska, at 10 A. M. June 15, 1898.

Executive Committee. *J. W. LATTIG, President.*
 W. W. RYDER, Vice-Pres.
 P. W. DREW, Sec'y and Treas.

The April number of "Electricity" gives some interesting information regarding the early use of electricity to explode submarine mines. It seems that the first instance of a submarine mine being exploded by the aid of electricity occurred on the Potomac some fifty-six years ago. As Robert Fulton was undoubtedly one of the first, if not the first, to improve the torpedo then in use, so Samuel Colt, the inventor of the well-known revolver, was the first to make use of an electric battery in firing a mine located under water. In the summer of 1842 the United States government was prevailed upon to place an old schooner at Mr. Colt's disposal to be experimented upon in the Potomac. In the presence of a large number of high government officials,

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

NEW YORK, MAY 20, 1898

among whom was General Winfield Scott, Mr. Colt successfully destroyed the schooner by means of a current of electricity from an observation tower located on the bank of the Potomac, a distance of five miles from the mine. In those early days of electricity, this feat was considered something unparalleled, and attracted considerable attention in scientific circles both in this country and abroad. After the successful completion of the test, the inventor asserted that he could explode a shell under water by practically the same methods at a considerably greater distance. With a view to enabling him to carry on his experiments, and perfect his apparatus, President Taylor who took great interest in such matters, caused an appropriation of \$17,000 to be made to Mr. Colt, with the understanding that a more extensive trial of the invention should take place at an early date. On October 18, 1842, therefore, a well-arranged mine was electrically fired by Mr. Colt in New York harbor, with equal success, in the presence of a large gathering of people. The *Evening Post*, of October 19, 1842, described this interesting event as follows: "A vast multitude assembled yesterday afternoon to witness the explosion of Colt's submarine battery placed under a vessel of 260 tons. The North Carolina, seventy-four, about 4 o'clock, gave a salute of thirteen guns. Immediately afterwards the signal for the explosion was given. The vessel rose bodily out of the water and then separated into fragments which were thrown about seventy feet into the air. The next moment nothing was seen of her except a few pieces of the wreck which were floating on the water."

THE value of the instruments and machinery exported from the United States during 1897 for scientific purposes was \$3,054,453, which was an increase of half a million dollars as compared with the exports in 1896.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5 00, 5 cts.	Over \$40.00 to \$50 00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. Wilbur, Assistant Treasurer, and sent by mail. They must not be made payable to M. T. Wilbur without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Asst. Treasurer.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY, }
NEW YORK, May 20, 1898.

As indicated by notice hereinafter the Western Union lines have been extended to British Columbia and an office opened at Victoria. As the tariff sheet shows no rate to British Columbia the State rate from other States is given in following table, from which you will take the State rate of your State, Territory or Province, and enter it on your tariff sheet. Offices which require square rates to Victoria will be specially notified.

The following list of "changes" corrects the Tariff Book of January, 1898, to date. Changes in the list of "New Offices" are not included.

The hand **[]** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by **[]**

giving the name of the office with the words "now Square," etc., as in the case of Toledo Junc., Ohio, which was formerly a single star "other" line office but which is now a Western Union office in Square 191.

See Special Notices at end of this circular.

CHANGES.

ALABAMA.

CABLES.

The rate to Wladiwostock, Russia in Asia, via Siberia, is same as to 3d Region East of Werkne Oudinsk given on page 432 of Tariff Book, viz.: 51 cents per word beyond London.

Erase from page 434 of Tariff Book the rate beyond Havana to Santiago, and enter Santiago on page 439 as 73 cents per word from W. Union offices east of the Mississippi River, and 88 cents per word from offices west of the Mississippi River.

For changes in rates to Jamaica and other places in West Indies, see page 439 of January 1898 Tariff Book.

Cable communication has been established with Turks Island in the Bahamas. Rate, 27c per word less than to Bermuda given on page 437 of Tariff Book.

SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 192), Catskill Mountains (page 196), and Lake George (page 204). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes soulder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the **best** low priced telegraph set ever made.
It's one of our specialties, and made in large quantities.

MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET NEW YORK

J. H. BUNNELL & CO.'S

STEEL LEVERSOLID
TRUNNION**KEYS.**PRICE,
1.75.OVER 100,000 NOW IN USE.
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

THE BUNNELL STEEL LEVER KEY is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platinum points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

* Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

**LEGLESS PATTERN STEEL LEVER KEY**

New Form with Open Base.

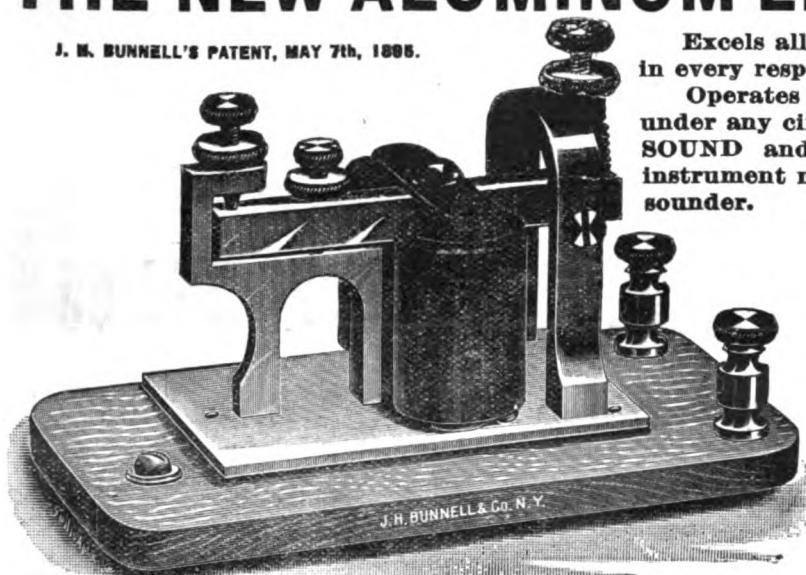

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1885.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, - - - - - \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length. \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,
AND STEEL LEVER KEY****COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

The New Departure Learners' Outfit....**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

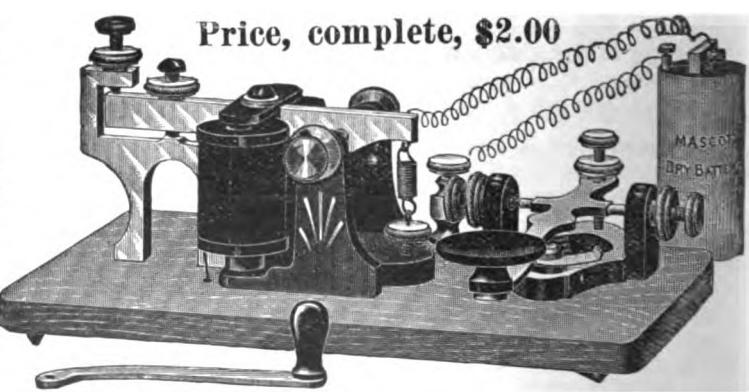

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

IMPOSSIBLE!

Would have been the answer of any bicycle manufacturer if you had asked him prior to the advent of the Columbia Bevel-Gear Chainless to build you a bicycle with the following specifications:

- 1st. No back lash to the driving gear.
- 2nd. All its running parts must be proof against mud and dust.
- 3rd. The driving gear must be the strongest, not the weakest part of the machine.
- 4th. It must be an easy hill climber, a delightful coaster; swift and safe on the level.
- 5th. It must have a rigid frame, graceful lines and up-to-date equipment. In the

CHAINLESS BICYCLE

This Ideal Is Realized.

JOURNAL OF THE TELEGRAPH

THE NEW YORK
PUBLIC LIBRARY
ASTOR, LENOX AND
TEN FOUNDATIONS.

VOL. XXXI.

NEW YORK, OCTOBER 20, 1898.

WHOLE NO. 1544.

ANNUAL REPORT OF THE PRESIDENT OF THE WESTERN UNION TELEGRAPH COMPANY FOR THE YEAR ENDED JUNE 30, 1898.

APPROVED BY THE EXECUTIVE COMMITTEE AND
ORDERED TO BE SUBMITTED TO
THE STOCKHOLDERS.

CAPITAL STOCK.

The capital stock outstanding is \$97,370,000.00, of which \$28,850.35 belongs to, and is in the treasury of the company. During the year there was no change.

BONDED DEBT.

The bonded debt at the close of the year was as follows:

Bonds due March 1, 1900, 6 per cent.	\$771,282 00
Bonds due May 1, 1900, 7 per cent.	4,920,000 00
Bonds due May 1, 1903, 7 per cent.	1,183,000 00
Bonds due January 1, 1908, 5 per cent.	8,602,000 00

Less balance of sinking funds appropriations not yet used for redemption of bonds..... 497,406 48

\$14,858,876 52

During the year £2,000 sterling bonds, due March 1, 1900, were redeemed by the sinking funds trustees, and \$14,000 of 5 percent collateral trust bonds, due January 1, 1938, were issued in exchange for a corresponding amount of capital stock of the Gold and Stock Telegraph Company, upon which, under lease of that company, interest was being paid at the rate of 6 per cent. per annum.

BUSINESS OF THE YEAR.

Surplus July 1, 1897..... \$7,647,541 06

The net revenues, expenses and profits of the year ended June 30, 1898, were as follows:

Revenues.....	\$23,915,738 78
Expenses.....	17,825,681 52
	6,090,151 26

\$13,737,692 32

From which there was applied:

For dividends.....	\$4,867,911 26
" interest on bonds.....	896,564 95
" sinking funds appropriations... ..	9,991 00

5,774,457 20

Deducting which leaves surplus, June 30, 1898, of. \$7,963,285 12

The expenses of the year were:

For operating and general expenses.....	\$12,749,972 76
" rentals of leased lines.....	1,570,006 41
" maintenance and reconstruction of lines....	2,688,283 42
" taxes.....	566,224 51
" equipment of offices and wires.....	251,794 42
Total expenses as above.....	\$17,825,681 52

BALANCE SHEET—JUNE 30, 1898.

ASSETS.		LIABILITIES	
Telegraph Lines: Stocks owned or leased by Telegraph Companies that are merged in Western Union Co.'s system; Franchises, Patents, etc.	\$102,986,201 75	Capital Stock.....	\$97,370,000 00
Stocks and Bonds of leased Telegraph Companies received in enclave for collection of trust bonds.....	8,502,000 00	Funded debt.....	15,386,282 00
Stocks of not leased telegraph companies, and other securities.....	8,093,068 24	Gold and Stock Telegraph Co. for stocks of other Companies held through lease of that Company until 1891.....	1,956,800 00
Real Estate.....	4,977,053 74	Sundry accounts payable, etc. (including dividend July 15, 1898).....	6,693,011 74
Supplies and material in supply department.....	149,162 50	Surplus of income prior to October 1, 1891, appropriated for construction and acquisition of Telegraph lines and property in excess of the \$15,328,500 capital stock distributed in 1891, on account of such appropriations of income during the 16 years preceding).....	1,568,164 08
Sundry accounts receivable, etc.	2,606,886 60	Surplus of income subsequent to October 1, 1891 (\$33,125 21), plus the proportion of surplus of income prior to October 1, 1891 (\$829,759 91), that was not appropriated as above.....	7,968,235 13
Cash in Treasury and in hands of agents (since remitted to Treasury).....	2,142,603 48		
	497,406 48		
	\$13,737,692 32		

The following table shows a decrease of 767 miles of poles, as compared with the preceding year. This is caused by the abandonment of certain highway lines, which it would otherwise have been necessary to reconstruct, at a large cost, and the transfer of the wires therefrom to newer poles on parallel railroad routes.

The table also shows an increase of 33,418 miles of wire and of 441 offices.

The number of messages transmitted was 4,032,065 more than for the preceding year.

The revenues for the year were \$1,276,873.62 more than for the preceding year.

The increased revenues made necessary an increased outlay for operating and general expenses of \$655,111 63. For reconstruction and maintenance, to preserve the efficiency of the property, \$342,913 91 more was spent than for the preceding year, and the cost of equipment of the new offices and for improving old equipments was increased \$48,371.51.

THE WESTERN UNION TELEGRAPH COMPANY.

STATISTICS.—The following table exhibits the Mileage of Lines Operated, Number of Offices, Number of Messages Sent, Receipts, Expenses, Profits and average Tolls and Cost per Message for Each Year since 1866:

Miles of Poles and Cables	Miles of Wires	Offices	Messages	Receipts	Expenses	Profit	Average Tolls per message	Cost of message

The amount paid for taxes was \$123,980.47 less, because of the settlement during the preceding year of disputed accounts with several states, but was still \$144,038.50 more than was paid during the fiscal year 1898. The rentals of leased wires were \$8,491.09 less. The net increase in expenses for the year was, therefore, \$918,925.49, as compared with the preceding year.

The average tolls received were 30.1 cents per message. The average cost per message was 24.7 cents.

The decrease in the average tolls received, and the increase in the average cost per message, are accounted for by the large number of government

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

NEW YORK, OCTOBER 20, 1898.

THE annual meeting of the United States Military Telegraph Corps was held at Omaha, Neb., on September 14th. Boston, Mass., was designated as the place of meeting in 1899, the time thereof to be determined later by the Officers of the Corps.

The following officers were elected for the ensuing year:

President Wm. B. Wilson, Philadelphia.
Vice-President Wm. L. Ives, New York.
Secretary and Treasurer Jas. E. Pettit, Chicago.

Deaths since the last meeting o' six members of the Corps were reported: Denis Doran, J. C Van Duser, J. J. Wickham, W. H. Parsons, J. W. Lithgow, William Patterson.

NEW YORK, October 6th, 1898.

TO THE EXECUTIVE COMMITTEE, GOLD AND STOCK LIFE INSURANCE ASSOCIATION:

THE Auditing Committee begs leave to report they have examined the accounts of the Secretary, and of the Treasurer, for quarter ended September 30th, 1898, and submits the following report:

and press messages, consequent upon the war with Spain, transmitted during the latter part of the fiscal year, on both of which classes of messages the tolls are the lowest, although the highest grade of operating service has to be employed for their efficient transmission.

The cost of construction of new property for the year was \$1,117,651.61.

The surplus account was increased \$315,694.06.

Respectfully submitted,

THOS. T. ECKERT,

President.

AT the convention and eighteenth annual reunion o' the Old Time Telegraphers' Association held in Omaha, Neb., September 18th, 14th, 15th. Boston, Mass., was designated as the place of next meeting in 1899, the time thereof to be determined by the Executive Committee.

The following officers were elected for the ensuing year:

President, H. J. Pettengill, Boston.

Secretary and Treasurer, John Brant, New York.

Executive Committee, H. J. Pettengill, Boston, Chairman, J. J. Dickey, Omaha; Jas. Compton, Nashville; E. C. Cockey, New York; S. A. Duncan, Pittsburgh, and five others to be appointed by the President.

W. J. Dealy, of New York, who has been Secretary of the Association for the past fifteen years declined re-election.

F. X. ZIEGLER, Manager of the Western Union Telegraph Co., at Columbia, Pa., on September 22d, 1898, completed his fiftieth year of continuous service as manager of the telegraph office at that place. He was appointed in charge of the telegraph office at Columbia, Pa., on September 22d, 1848.

TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

THE Annual Meeting of this Association will be held at 195 Broadway, New York, on November 16th, a⁴ P. M.

During the past year the progress of the Association has been very satisfactory to the Officers and Executive Committee. Two hundred and sixty-six (266) members were admitted in the full grade, and ninety-five (95) in the half grade. Death claims amounting to forty-nine thousand five hundred dollars (\$49,500.00) were paid to the beneficiaries of deceased telegraphers. The par value of the reserve fund is now \$150,650, from which over \$8,000 interest was received during the year, an amount sufficient to pay all expenses and several death claims in addition.

These figures speak eloquently of the careful and judicious manner in which the affairs of the Association are administered, and should prove a powerful magnet to attract the younger members of the telegraph fraternity to join its membership and share in the advantages offered.

The year which ended September 30th was the 81st of the Association's existence, during which it has steadfastly maintained the policy of offering to the members of the tele-

graph fraternity of both sexes, at rates within the reach of all, plain life insurance, protection for their families and dependents.

The assessments hav^e averaged twelve a year, and the cost for a full grade (\$1,000) policy, between the ages of eighteen and thirty is but one dollar an assessment. The initiation fee is but two (2) dollars, one-half of which is allowed for medical examination, and there are no dues or other charges levied.

As membership in many of the fraternal orders is rapidly becoming burdensome, there can be no doubt but that the conservative course pursued by this Association will appeal to many who are eligible, and a large increase in the membership is expected during the coming year.

Application blanks, and any information desired, will be gladly furnished by any of the resident Agent^s, or by the Secretary, P. O. box 510, New York City.

TRANSFER SERVICE.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, October 18, 1898.

To All Transfer Agents and Offices:

The transfer service has been resumed at New Britain, Conn., and temporarily discontinued at Maysville, Ky., and Winona, Miss., and discontinued for the season at Cape May, N. J.

The transfer service was discontinued at Fayetteville, N. C., on September 26th, and resumed on October 8th, and discontinued at Tucson, Ariz., on September 19th, and resumed on October 10th.

On October 1st, Calumet, Mich., was added to the list of Class D. transfer offices in McMichael's district.

On October 10th, A. C. Stevenson, was appointed Transfer Agent, Vice W. A. Dabney, with headquarters at Richmond, Va.

Managers will correct their lists accordingly.

THOS. T. ECKERT,
President

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, October 20th, 1898.

The following business franks are hereby revoked:

No. 9544, issued on account of the Hotel Broezel, Buffalo, N. Y.

No. 9545, issued on account of the Hotel Broezel, Buffalo, N. Y.

No. 9546, issued on account of the Hotel Broezel, Buffalo, N. Y.

No. 9591, issued on account of the Omaha, Kansas City & Eastern Railroad.

Managers will please take up those franks if presented and return it to this office for cancellation.

THOS. F. CLARK,
Vice-President

A professional school of electricity is to be established near Paris, France. The school is intended to furnish laborers and foremen with an electrical education and a first-class instruction will be given in both theory and practice.

—E. Review.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY.
NEW YORK, October 20, 1898.

The following list of "changes" corrects the Tariff Book "of July, 1898," to date. Changes in the list of "New Offices" are not included.

The hand [S] indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

CHANGES.

ALABAMA.

CABLES.

CUBA.

Erase from page 427 of Tariff Book the rate beyond Havana to Caimanera and Guantánamo, and enter Caimanera and Guantánamo on page 448 as 78 cents per word from W. Union offices east of the Mississippi River, and 88 cents per word from offices west of the Mississippi River.

BERMUDA AND TURKS' ISLAND.

A reduction in the rate to Bermuda was made August 1st. To obtain the new rate to Bermuda, deduct 50 cents from the rates given on page 431 of the Tariff Book. Thus, Tariff Book rate New York to Bermuda is 51 cents per word. The new rate is 28 cents less than 51, or 43 cents.

The rate to Turk's Island will remain as given in the Tariff Book viz.: 25 cents per word less than the Tariff Book rate to Bermuda, or 14 cents per word more than the new rate to Bermuda. Thus New York to Turk's Island is 56 cents per word.

SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 207). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 427 to 448, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 377 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any Steamer at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,
President.

The Santa Fé road has made arrangements to light all the cars of its limited trains running between Chicago and Los Angeles, a distance of 2,209 miles, with electricity. The electric equipment of each train will aggregate 4,928 candle-power. All berths will be provided with berth lights, and this will be the first train in the world carrying such a large supply of light service exclusively from the car axles. It is the intention also to light the locomotive head-light from the same service, thus making the four limited trains solid axle light trains throughout.—*St. L. Review.*

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz.:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$6.00 to 10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. Wilbur, Assistant Treasurer, and sent by mail. They must not be made payable to M. T. Wilbur without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

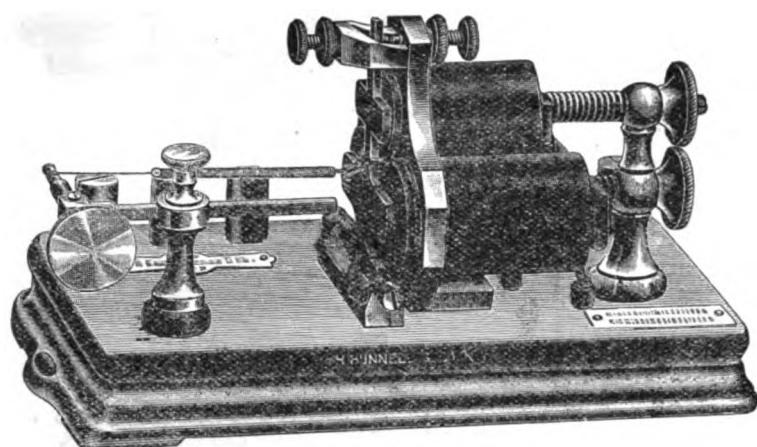

THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.	
One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25

Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).40

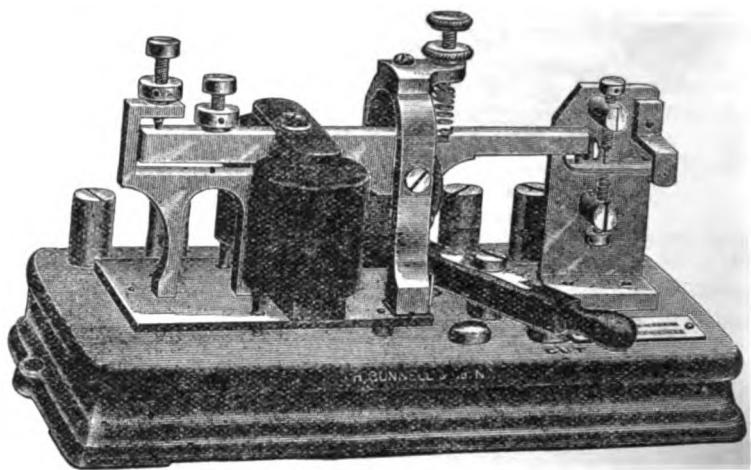

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

MANHATTAN ELECTRICAL SUPPLY CO.
32 CORTLANDT STREET, NEW YORK.

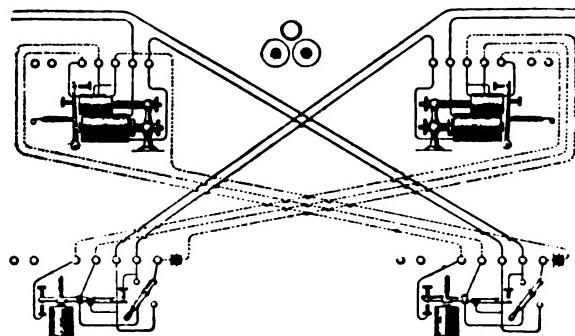

Automatic Telegraph Repeaters.

WEINY-PHILLIPS RELAY.

WEINY-PHILLIPS TRANSMITTER.

Weiny-Phillips Repeater Connections.

The operation of this repeater is simple and easily understood. The third spool of relay is differentially wound, so that normally the windings neutralize each other and no magnetism is developed in this spool. One of the coils of the differential spool is in circuit with the front contact of the transmitter of opposite side, so that the instant the transmitter circuit is broken the corresponding coil of the differentially wound spool is opened thereby permitting the second coil to act and hold the relay armature closed.

The differential magnet being energised by the breaking instead of the closing of the auxiliary circuit enables this repeater to act quicker and thereby very materially increases its capacity for rapid signalling over any other type.

We take pleasure in calling attention to the merits of the

WEINY-PHILLIPS REPEATER.

It has stood the test and comes out **AHEAD** of all **OTHERS** for **SIMPLICITY, RELIABILITY** and **QUICK POSITIVE ACTION**.

It is the **easiest** to adjust and requires the **least** attention of any Automatic Repeater.

It is extensively used and **preferred** over all other forms by the Western Union and Postal Telegraph Companies, the Associated Press and every Railroad that has tried it.

We might say that the **WEINY-PHILLIPS REPEATER** is particularly adapted for railroad work as, unlike some other types, there is no danger of "kicks" from the vibrations caused by passing trains, or other jars.

In brief, for all conditions of Railroad or Commercial work we unhesitatingly claim the **WEINY-PHILLIPS REPEATER AWAY AHEAD** of any other heretofore devised type of Automatic Telegraph Repeater.

NEW YORK, AUGUST 20, 1899.

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

The foregoing applies to messages of ARMY officers only, and does not apply to the messages of other U. S. government officials than Army officers.

NEW YORK, June 20th, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,
President and General Manager.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY, }
NEW YORK, August 20, 1899.

The following list of "changes" corrects the Tariff Book "of July 1899" to date.

The hand indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Central Point, Org., which was formerly a three star station, but which is now a Western Union office in Square 1244.

See Special Notices, at end of this circular.

NEW YORK, OCTOBER 20, 1899.

AT the 19th Annual Reunion of the Old Time Telegraphers' Association, which took place at Boston on September 12th, 13th and 14th, the following officers were elected for the ensuing year: H. C. Hope, St. Paul, Minn., President; H. A. Tuttle, Minneapolis, Minn., Vice President; John Brant, New York, Secretary and Treasurer.

The place and time of the 20th Annual Reunion was fixed to be St. Paul and Minneapolis, Minn., in September, 1900.

AT the Annual Meeting of the United States Military Telegraph Corps, held at Boston, September 12th, 13th and 14th, Minneapolis and St. Paul, Minn., were selected as the places for the next Annual Meeting in September, 1900.

The following officers were elected for the ensuing year: President, William B. Wilson, Philadelphia; Vice-President, William L. Ives, New York; Secretary and Treasurer, J. E. Pettit, Chicago; Chairman Executive Committee, E. Rosewater, Omaha, Neb.

NEW YORK, October 4, 1899.

TO THE EXECUTIVE COMMITTEE, GOLD AND STOCK LIFE INSURANCE ASSOCIATION:

The Auditing Committee begs leave to report they have examined the accounts of the Secretary, and of the Treasurer, for the quarter ended September 30, 1899, and submits the following report:

Expenses.....	12.28
Balance on hand.....	\$11,310.42

F. H. N.
W. M. S.
M. J. *Auditing Committee.*

Continued from first page.

The average tolls received were 30.8 per message, as against 30.1 cents per message in 1898. The average cost per message was 25.1 cents per message as against 24.7 cents per message in 1898. Both of these increases were caused by the larger number of full-rate commercial messages, and the smaller number of press messages transmitted in 1899, as explained above.

The outlay for construction of new property for the year was \$820,190.69, principally for additional copper wires on our trunk lines.

The lines of the company are in excellent condition, and no efforts are spared by our officials and employees to meet the ever-growing demands of the public for the most expeditious and reliable service. To provide and maintain the means for reaching this result, the continued outlay of much money is necessary, the company having expended during the last ten years, as shown by the annual reports, \$11,284,267.11 for new lines and property, and \$23,555,446.42 for maintenance and reconstruction.

Since the close of the fiscal year the weekly statement of test office receipts shows a steady gain. This improvement, together with the increase of \$122,763.21 in the estimate of net revenues for the quarter ended September 30th, 1899, as compared with the same quarter of 1898, is a promising indication of the business for the current fiscal year, if the existing commercial conditions continue, and of that continuance there is every reasonable prospect.

Respectfully submitted,

THOS. T. ECKERT,

President.

TRANSFER SERVICE.

EXECUTIVE OFFICE.

WESTERN UNION TELEGRAPH COMPANY.
NEW YORK, October 18, 1899.

To All Transfer Agents and Offices:

The transfer service has been temporarily discontinued at Cordele, Ga., Durham, N. C., and Tyrone, Pa., and discontinued for the season at Narragansett Pier, R. I.

The transfer service will be resumed at Cordele, Ga., and Orlando, Fla., on November 1st.

The transfer service at Cape May, N. J., will hereafter be continuous, and the words "Summer office" opposite the name in the Tariff Book should be stricken out.

Managers will correct their lists accordingly.

THOS. T. ECKERT.

President.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, September 18, 1899.

The following franks are hereby revoked:

Full business frank No. 8140, issued on account of Intercolonial Railway.

Full business frank No. 6184 issued on account of Georgia & Alabama Railway.

Full business frank No. 7750, issued on account of South Carolina & Georgia Railroad.

Full business frank No. 7778, issued on account of South Carolina & Georgia Railroad.

Half-rate business frank No. 187, issued on account of Erie Despatch.

Half-rate business frank No. 1707, issued on account of Atchison Daily Champion.

Managers will please take up those franks if presented and return them to this Office for cancellation.

THOS. F. CLARK,
Vice-President.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz.:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncirculated, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, October 20, 1899.

The following list of "changes" corrects the Tariff Book "of July, 1899" to date. Changes in the list of "New Offices" are not included.

The hand ~~in~~ indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

See Special Notices, at end of this circular.

LINE TO THE KLONDIKE.

There is now a telegraph line from Skagway (or Skagway), Alaska, to Dawson City, in one of the N. W. Territories of Canada. The offices on this line with other line rates are given under Alaska and N. W. Territories in the usual manner.

Messages for places on this line are carried by steamer from Seattle, Wash., or Victoria or Vancouver, B. C., to Skagway, at which place they are transferred to the telegraph line for transmission to destination.

Steamers leave Seattle, Victoria and Vancouver at frequent intervals.

SPECIAL NOTICES.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 210), Catskill Mountains (page 214), and Lake George (page 222). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words, "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus:

Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 463 to 467, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 403 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOMAS T. ECKERT,

President.

M. S. CORBETT, Manager of the Western Union Telegraph Co. at Detroit, Mich., died there on September 26th, and W. F. Snyder, Manager of the Western Union Telegraph Co. at North Sydney, Cape Breton, died there on October 9th.

Managers will correct their lists accordingly.

THOS. T. ECKERT,
President.

TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

THE thirty-third annual meeting of the Telegraphers' Mutual Benefit Association, was held at 195 Broadway, New York, on 16th inst.

The meeting was called to order at 4 P. M. by President Walter C. Humstone who expressed his pleasure at seeing such a large meeting and at the attendance of so many agents as delegates from their respective districts.

From the reports of the secretary and treasurer, which were submitted, it was shown that the Association has 4,479 members in the Full Grade (\$1,000 certificates); and 351 in the Half Grade (\$500 certificates).

The collections from members during the year amounted to \$68,484.82, and for interest on the Reserve Fund and current deposit account, \$8,855.30.

The amount paid for death claims, 60 in the Full Grade and 2 in the Half Grade, was \$61,000. The sum of \$10,000 was carried to the Reserve Fund making the total par value \$160,968.68.

The report of the Auditors show that the surplus of assets over liabilities at the close of the fiscal year, September 30, was \$174,531.26 which is an increase of \$10,000 over the preceding year.

The following officers were duly elected: President, Walter C. Humstone, 1st Vice-President, W. H. Young, 2d Vice-President, Chas. P. Bruch, Secretary, M. J. O'Leary, Treasurer, A. R. Brewer. Executive Committee: James Merrihew, E. J. Nally, B. Brooks, Jos. L. Edwards, C. W. Hammond, S. S. Garwood. Auditing Committee: E. B. Pillsbury, Boston, Chairman; W. J. Dealy and T. E. Fleming.

MR. WALTER C. HUMSTONE'S ADDRESS:

To the Members of the Telegraphers' Mutual Benefit Association:

It affords me pleasure to welcome you to this the thirty-third anniversary of your Association, and to congratulate you on its prosperous condition, increasing usefulness and stability, as will be seen from reports of Secretary and Treasurer to be presented.

During the year fifty-seven deaths were reported, and \$61,000 paid out for death claims. These figures are the largest yet recorded in the history of the Association, and prove the statements made to you from year to year that the time is at hand when heavy mortality may be expected from among the older members.

Among the deaths reported was that of Captain George H. Tilly, who was killed in action at Escalante, Island of Negros, Philippine Islands, May 27th last. It is satisfactory to note that although many of our members participated in the Spanish-American War, this was the only casualty involving a claim on the Association.

A larger number of applications was received and a larger number of new members were admitted than during the previous year, yet owing to the death rate and the heavy lapse rate, the net increase of membership is less than last year.

Many of the lapsed members have had membership ranging from ten to twenty-nine years, and it is difficult to understand why such insurance should lapse, except that circumstances were such that a necessity for it no longer existed.

It has been suggested that of those who lapsed, many did so because of cost of the insurance being greater than they could afford. The establishment of the Half Grade was to enable any that desired to reduce the amount of insurance carried and the consequent expense, but as no applications for reduction to Half Grade were received during the year, it is fair to assume that the cause of lapsing is not due to excessive cost.

In this connection it is worthy of note that the Fraternal Congress assembled at Chicago in August last, adopted a table of rates which will bring the cost of insurance in the fraternal orders to a higher figure than our rates.

From the Treasurer's Report you will note that the sum of \$10,000 was carried to the Reserve Fund, bringing its par value to \$160,968.44, an amount equal to 3.45 per cent. of the total insurance.

Of the amount thus carried but \$1,144.70 was drawn from current income, as the interest received from our investments amounted to \$8,855.30.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (Form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz.:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (*excepting where bank drafts can be obtained at less expense.*)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 128, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

JOURNAL OF THE TELEGRAPH

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, November 20, 1899.

The following list of "changes" corrects the Tariff Book "of July, 1899" to date. Changes in the list of "New Offices" are not included.

The hand ~~is~~ indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Central Point, Org., which was formerly a three star station, but which is now a Western Union office in Square 1244.

See Special Notices, at end of this circular.

LINE TO THE KLONDIKE.

There is now a telegraph line from Skagway (or Skagway), Alaska, to Dawson City, in one of the Northwest Territories of Canada. The offices on this line with other line rates are given under Alaska and Northwest Territories in the usual manner.

Messages for places on this line are carried by steamer from Seattle, Wash., or Victoria or Vancouver, B. C., to Skagway, at which place they are transferred to the telegraph line for transmission to destination.

Steamers leave Seattle, Victoria and Vancouver at frequent intervals.

CABLES.

The rate to Pescadore Islands—Makong, is now \$1.51 per word beyond London. Correct Tariff Book, page 476.

The cable from Cape Town to St. Helena Island has been extended to Ascension Island. Rate to Ascension Island \$1.71 per word beyond London.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on page 478 of January Tariff Book.

SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices should enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading, "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7

shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 488, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

JOURNAL OF THE TELEGRAPH.

VOL. XXXIII.

NEW YORK, APRIL 20, 1900.

WHOLE NO. 562.

WILLIAM J. HOLMES, Superintendent of the Seventh District Eastern Division Western Union Telegraph Company, and Superintendent of Telegraph of the Erie Railroad system, died at his home at Paterson, N. J., on April 11th, aged 61 years.

Mr. Holmes was born at Aurlesville, N. Y., September 13th, 1838, and entered the telegraph service in 1856 on the Erie Railroad lines, with which Company (with the exception of a period during the Civil War when he was in the United States military telegraph service) he was connected continuously for a period of nearly 45 years.

In 1866 he succeeded the late L. G. Tillotson both as a District Superintendent of the Western Union Telegraph Company, and the telegraph superintendent of the Erie Railroad Company. As both, a commercial and a railroad telegraph superintendent, of long experience, he was a superior manager, and in all the duties of life he was an excellent man.

He leaves a widow, two sons and two daughters. His funeral services were held at Paterson, on April 14th, and his interment was at Port Jervis on the same day.

NEW YORK, March 20, 1900.

To All Western Union Managers:

Messages upon the official business of the United States Census, filed by United States Census officials and endorsed "OFFICIAL BUSINESS; CHARGE CENSUS OFFICE, WASHINGTON, D. C." may be accepted without prepayment. When addressed to Washington such messages should be sent checked "COLLECT GOVERNMENT RATE," and when addressed to places other than Washington should be sent checked "PAID GOVERNMENT RATE." Those sent checked "PAID GOVERNMENT RATE" should be taken credit for in the Account Current portion of the monthly Form No. 4 report, the original messages being sent in therewith.

THOS. T. ECKERT,
President and General Manager.

THE first railroad company in the United States to construct a telegraph line and operate its road by telegraph, was the Erie R. R. Co. in 1851.

Since then, for a period of nearly fifty years, it has had but two Superintendents of Telegraph—L. G. Tillotson prior to 1866, and W. J. Holmes since then until his death recently.

THE TELEGRAPH AT VICTORIA NYANZA.

The completion of the telegraph from the Indian Ocean to Victoria Nyanza puts the world in communication with the sources of the Nile. The telegraph line has been completed as far as Ripon Falls, which is the point where the White Nile leaves the lake. The people of Lower Egypt will now be able to tell what the water conditions of the Lower Nile will be for months in advance, so that they can regulate the quantity to be taken from the Nile for irrigation purposes. Information as to the state of the water in the Upper Nile would at times be worth millions of dollars to Lower Egypt. At present despatches from Victoria Nyanza will have to be sent by steamer to be put on the cable at Zanzibar. This will, of course, delay messages for several days, but five years ago, says the *New York Sun*, when the building of this line and the railroad alongside of it was commenced, the shortest time in which the news from the lake could reach Europe was about four months.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, April 20, 1900.

NOTICE.

Attention of offices is specially called to the necessity of complying with Rule 79, as to dating free messages with the names of the places at which they are filed, as well as indicating thereon plainly and correctly the amount of the tolls, in the manner stated.

THOS. T. ECKERT,
President and General Manager.

F. L. BLENDINGER has been appointed Superintendent of the Seventh District, Eastern Division, Western Union Telegraph Co., vice W. J. Holmes, deceased. Mr. Blendinger has also been appointed in place of Mr. Holmes, Superintendent of Telegraph of the Erie R. R. Co.

REMARKABLE METALLURGICAL EXPERIMENTS.

SOME interesting experiments were carried on in the laboratory of Mr. T. A. Edison, at Orange, N. J., on April 7th, by the agent of a German chemical concern, who exhibited a new process of attaining great heat in an almost incredibly short time by the combustion of a secret chemical compound used in connection with powdered aluminium. A cupful of the chemical was placed in a crucible, a small amount of powdered aluminium was added, and then a wrench about half an inch thick and six inches long was placed in the crucible. A match was touched to the compound, and violent combustion took place. It is estimated that the temperature was not far from 3000° C.

TRANSFER SERVICE.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, April 18, 1900.

To All Transfer Agents and Offices:

The transfer service has been resumed at Bloomington, Ind., and New Brunswick, N. J., discontinued at Auburn, Cal., temporarily discontinued at Tallahassee, Fla., and discontinued for the season at Palm Beach, Fla.

The transfer service will be resumed at Charleroi, Pa., and Tallahassee, Fla., on May 1st.

On May 1st, the following offices will be added to the list of transfer offices:

In E. M. Mulford, Jr.'s district: Excelsior Springs, Mo., Class E; Waukegan, Ill., Class D.

In A. C. Stevenson's district: Chester, S. C., Class E.

In Arthur Cox's district: Waterpower, Sault Ste. Marie, Ont., Class B.

On May 1st, Atlantic, Iowa, and Jefferson City, Mo., will be advanced from Class E. to Class D. and on same date, San Bernardino, Cal., will be reduced from Class C. to Class D. transfer offices.

Managers will correct their lists accordingly.

On April 2d, N. E. Church was appointed Transfer Agent at Pittsburg, Pa., vice Frank E. Sullivan, Acting Transfer Agent. Transfers for Pittsburg, Pa., should be addressed to N. E. Church, instead of Frank E. Sullivan.

THOS. T. ECKERT,
President.

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S DEPARTMENT UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20th, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,
President and General Manager.

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 22,000 in number. Hence it is the best advertising medium of its class in the world.

NEW YORK, APRIL 20, 1900.

THE FINDING OF THE SOUTH MAGNETIC POLE.

THE steamer "Southern Cross," with C. E. Borchgrevink and the survivors of the South Polar expedition, which was fitted out in 1898 by Sir George Newnes, has arrived at Wellington, New Zealand. Herr Borchgrevink reports that the magnetic pole has been located. "The key to the future knowledge of terrestrial magnetism lies in the determination of the exact position of the southern magnetic pole," remarked Sir Joseph Hooker, several years ago. The work of Sir James Ross, who, early in 1841, sought a harbor in Victoria Land with a view to spending the winter there and planting his flag on the south magnetic pole the next summer, will be remembered. He did not, however, succeed in reaching it, and the nearest he came to it was off Mount Erebus. Sir John Ross discovered the position of the North Pole some sixty-seven years ago, and the knowledge of the exact position of the north and south magnetic poles will set at rest the question which is still much in dispute among scientific men as to whether their position is fixed or variable, and if these poles are not stationary the comparison of their position at various times will show the direction and rate of their motion, which will enable the scientists who are interested in terrestrial magnetism to find the law governing the changes in magnetic declination, inclination and intensity. Accounts which have come to hand at present are very meagre, but if the expedition has done nothing more than discover the south magnetic pole, it has many times paid for itself from a scientific point of view.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY, }
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK April 20, 1900.

The following list of "changes" corrects the Tariff Book "of January, 1900" to date. Changes in the list of "New Offices" are not included.

The hand ~~is~~ indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Pavo, Ga., which was formerly a single star station, but which is now a Western Union office in Square 282.

PRESS MESSAGES TO THE KLONDIKE.

Press messages for Glacier, Log Cabin, Middle Lake, Shops and Summit in Alaska; Atlin and Bennett in British Columbia, Caribou, Dawson (City), Five Fingers, Fort Selkirk, Hootalinqua, Lower Labarge, Miles Canyon, Ogilvie or Sixty Mile River, Selwyn or Fort Selwyn, Tagish and White Horse in Northwest Territories, can now be accepted at "other" line rate of four cents per word for day and night messages beyond Seattle, Wash., or beyond Vancouver, B. C. No press message to be accepted for less than \$2.50 for "other" lines. Business to be prepaid.

See Special Notices at end of this circular.

CABLES.

Taking effect May 1st, the rate beyond London, via Eastern or India route to South and Western Australia and Tasmania, will be 98 cents per word. Correct Tariff Book, page 474.

Makong, given after Pescadore Islands in Tariff Book, is in Formosa Island. Rate \$1.51 per word beyond London. The rate to Pescadore Islands remains as at present, viz: \$1.35 per word beyond London.

Ascension and St. Helena Islands can now be reached via Madeira and Cape Verde Islands at following rates per word beyond London:

Ascension Island.....	\$0.98
St. Helena Island.....	.98

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on page 473 of January Tariff Book.

SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 468 to 483, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 417 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOS. T. ECKERT,
President.

TRANSFER SERVICE.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, May 18, 1900.

To all Transfer Agents and Offices:

The transfer service has been temporarily discontinued at Newport News, Va.

On June 1st, the following offices will be added to the list of Transfer offices:

In Arthur Cox's district: Massena, N. Y.
Class D.In F. R. Steele's district: Pomona, Cal.,
Class E.In C. Corbett's district: South Haven, Mich.,
Class E.

On June 1st, Waterpower, Sault Ste. Marie, Ont., will be changed to Sault Ste. Marie, Waterpower, Ont.

Managers will please correct their lists accordingly.

THOS. T. ECKERT,
President.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz :

Not exceeding \$6.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$6.00 to 10.00, 8 cts.	Over \$50.00 to \$60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over \$60.00 to \$75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over \$75.00 to \$100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer.

BENJAMIN F. ELY, after a long illness, died at his home in the Borough of Brooklyn, City of New York, on May 19th, aged 71 years.

Mr. Ely was one of the oldest old-timers in the telegraph service, having entered it in 1847 and continued in it for upwards of 50 years. In 1847, he was operator at Wheeling, W. Va., and Zanesville, O. In February, 1848, he was appointed, by Supt. J. D. Reid, first manager of the first telegraph office opened in Louisville, Ky. In 1851, he went abroad for an extended trip to Europe, Egypt and the Holy Land. In 1852, he was appointed Manager of the New York office of the National Lines, continuing as such until 1864. In 1855 he accompanied the expedition which sailed from New York with Prof. Morse, Cyrus W. Field, Peter Cooper, Bayard Taylor, and fifty or more other guests, to lay the section of the Atlantic cable between Newfoundland and Cape Breton. In 1860, he made a second trip to Europe. Since 1866 he has been connected with the Auditor's Department of the Western Union Telegraph Company. He was a member of the Old Time Telegraphers' Association and the Telegraphic Historical Society. There survives him a widow and two children, daughter and son. His interment was in Greenwood Cemetery.

NEW YORK, June 20th, 1899.

To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,

President and General Manager.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, June 20, 1900.

The July, 1900, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before July 1, when the new book takes effect.

The numerous additions to the list of offices in Mexico and the important changes in rates to places in Cuba other than Havana should be noted.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendents any errors which they may discover.

The following list of "changes" corrects the Tariff Book "of July, 1900" to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Dalton, Ohio, which was formerly a three star station, but which is now a Western Union office in Square 181.

See Special Notices at end of this circular:

CABLES.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book.

SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmaries, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

Managers of Western Union offices should enter in figures under the printed heading on

the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading. "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

The later form of the Check report No. 7 shows a place for the state receipts referred to above, and also a place for the total footings of the report. Offices having this latest form should be careful to make the entry of the totals as required.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

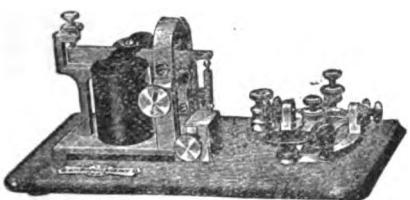

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 484 to 501, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 483 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

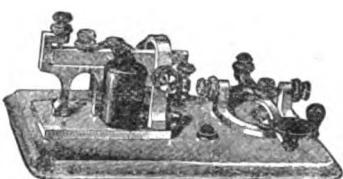

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

**TELEGRAPHERS' MUTUAL
BENEFIT ASSOCIATION.**

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY
IN UNITED STATES.

Reserve Fund - - - \$176,000

MEMBERSHIP - - 5,000

WALTER C. HUMSTONE, President, New York.

Organized and started on its beneficent career thirty-three years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents.

Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is contestable after a membership of one year.

A Reserve Fund of \$176,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 367, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45, employed in any capacity in the telegraph or telephone service, are eligible for membership.

Insurance Full Grade, \$1,000. Half Grade, \$500, or both grades, \$1,500.

Initiation fee, \$2 for each grade.

Rates from 50 cents to \$3, graded according to age.

Monthly assessments.

Agents in all principal cities.

NEW YORK, SEPTEMBER 20, 1900.

THE United States District Court has handed down a decision in an electrical case of importance. It is a case which had in question the inventions of Tesla. It related to three inventions by him, one of an electric magnetic motor, another on the electrical transmission of power, and the third for a specific construction of a motor embodying the invention of the other two patents. The main point of the invention is that by his inventions there is not the waste of electric energy that there was under the old arrangement.

The title of the case is the Westinghouse Electric Manufacturing Company against the New England Granite Company of Hartford and others. The defendants have been using Tesla's inventions in mining and other operations. The Court upholds Tesla and supports his invention in the following praise rare in a judicial opinion:

"A careful study of the evidence shows that Tesla has made a brilliant discovery. It remained to the genius of Tesla to capture the unruly, unrestrained and hitherto opposing elements in the field of nature and art and to

harness them to draw the machines of man. It was he who first showed how to transform the toy of Arago into an engine of power; the laboratory experiment of Bailey into a practically successful motor; the indicator into a driver. He first conceived the idea that the very impediments of reversal in direction, the contradictions of alternatives might be transformed into power, producing rotations, a whirling field of force. What others looked upon as only invincible barriers, impassable currents and contradictory forces he seized and by harmonizing their directions utilized in practical motors in distant cities the power of Niagara."

TRANSFER SERVICE.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, September 18, 1900.

To All Transfer Agents and Offices:

The transfer service has been resumed at Baton Rouge, La., Bloomington, Ind., Corning, N. Y., and Newberne, N. C., and temporarily discontinued at Fayetteville, N. C., and Hornellsville, N. Y., and discontinued for the season at Narragansett Pier, R. I.

The transfer service was discontinued at Galveston, Tex., on September 18th, and resumed on September 17th.

The transfer service will be resumed at Bristol, Tenn., and Palatka, Fla., on October 1st.

On September 10th, Long Branch, N. J., was reduced from Class B to Class D, transfer office.

On October 1st, Great Bend, Kan., will be added to the list of Class D transfer offices in J. J. Dickey's district.

Managers will correct their lists accordingly.

To All Transfer Agents:

On September 4th, C. B. Goodell was appointed Acting Transfer Agent at Los Angeles, Cal., vice E. A. Beardslee, absent. Transfers for Los Angeles, Cal., should be addressed to C. B. Goodell instead of E. A. Beardslee.

THOS. T. ECKERT,
President.

Western Union Telegraph Company.
NEW YORK, September 12, 1900.

DIVIDEND NO. 128.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of October next, to shareholders of record at the close of the transfer books on the 20th day of September, instant.

For the purpose of the Annual Meeting of Stockholders, to be held on Wednesday, the 10th day of October next, and of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of September, instant, and be reopened on the morning of October 11th, 1900.

Surplus July 1st, 1900, as above.....	\$8,458,204 86
---------------------------------------	----------------

The net revenues of the quarter ending September 30th, instant, based upon nearly completed returns for July, partial returns for August, and estimating the business for September, will be about..... 1,600,000 00

From which appropriating for—	
Interest on bonded debt..... \$239,040 00	
	239,040 00

It requires for a dividend of 1½ per cent. on capital stock issued, about.....	1,217,000 00
--	--------------

Deducting which, leaves a surplus, after paying dividend, of	\$8,082,164 86
--	----------------

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of October next, to stockholders of record at the close of the transfer books on the 20th day of September, instant.

Resolved, That for the purpose of the Annual Meeting of Stockholders, to be held on Wednesday, the 10th day of October next, and of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of September, instant, and be reopened on the morning of the 11th day of October next.

Respectfully submitted,

THOS. T. ECKERT,

President.

TARIFF BUREAU.

MONTHLY CIRCULAR.

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, September 20, 1900.

The following list of "changes" corrects the Tariff Book "of July, 1900" to date. Changes in the list of "New Offices" are not included.

The hand ~~(2)~~ indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

Places marked in the Tariff Book as "Summer" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

When a single, double or three star station is made a Western Union office the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Covington, La., which was formerly a single star station, but which is now a Western Union office in Square 428.

See Special Notices at end of this circular.

CHANGES.

CABLES.

THE AZORES.

Hereafter the rate to the Azores—Fayal Graciosa, Pico, St. George, St. Michael and Terceira will be same as the rate to London. Correct Tariff Book, page 491.

COREA.

The rates beyond London to Corea will hereafter be as follows. Correct Tariff Book, page 492:

Word Rates
beyond London.

COREA, via Northern (Siberia) and Fusan:

Chemulpo, Fusan and Seoul..... 31.51
Other offices..... 1.57

COREA, via Northern (Siberia) and Chinese land lines:

All offices..... 1.71

COREA, via Eastern or Indo, and Fusan:

Chemulpo, Fusan and Seoul..... 1.90
All other offices..... 1.96

COREA, via Eastern or Indo, and Chinese land lines:

All offices..... 2.55

A supplementary charge of 74 cents per message must be collected for telegrams addressed to vessels in the roadstead of Chemulpo.

VENEZUELA.

Telegraph stations have been opened at Barcelona, Carupano, Cumana and Port La Mar, in Venezuela. Rate to all same as to Maracaibo.

AFRICA.

During the continuance of the war in South Africa, telegrams forwarded via the West Coast and Cape Town to East Coast places in consequence of interruption will be charged the same rates as those "via Aden" given on pages 489, 490 and 491 of July Tariff Book.

SPECIAL NOTICES.

Particular attention should be given to messages addressed to Race Tracks, Baseball or Bicycle Parks, Fair Grounds, Camps, Asylums, Poor Houses, Hospitals, Infirmarys, Colleges, Schools, Convents, or to any institution or place, the situation of which is usually in the suburbs of some town or city. To such places there is very frequently a charge for delivery, and when a sender offers a message addressed as indicated, the Tariff Book and Journal should be consulted, and if there be a delivery charge, it should be collected from the sender and entered in the check as required by Rule 5.

All requests to destroy or omit a message, or change the check, should be disregarded except to refer the matter to your Superintendent for benefit of the service. This applies to missent as well as uncollected messages.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL, which together furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line, delivery, or telephone charges which should be provided for when messages are accepted.

Offices forwarding messages which they have received from places not shown in the Tariff Book should be careful to see that checks of such messages show, first the tolls, for "this" line, and then the tolls for "other" lines.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 484 to 501, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 483 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any steamship at the Port of New York will be reported to any address in New York City, Brooklyn, Hoboken or Jersey City during the Company's usual office hours for \$1.00. For other places the rate will be \$1.00, plus the tolls on a ten word day message to New York City. The \$1.00 to be accounted for, except by New York City offices, as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

THOS. T. ECKERT,
President

UNITED STATES government messages sent by ARMY officers, that are written upon the blue Form No. 87 for WAR DEPARTMENT OFFICIAL TELEGRAMS furnished by the QUARTERMASTER'S D E P A R T M E N T UNITED STATES ARMY, should always be checked "paid govt. rate" WITHOUT REQUIRING PAYMENT FROM THEIR SENDERS.

Such messages should be taken credit for in the Western Union monthly Form No. 4 Report Account Current, for collection from the government, the original messages being returned therewith, as vouchers for such credit taken.

NEW YORK, June 20, 1899.
To All Western Union Managers:

You are authorized to send "collect" without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,
President and General Manager.

NEW YORK, March 20, 1900.
To All Western Union Managers:

Messages upon the official business of the United States Census, filed by United States Census officials and endorsed "OFFICIAL BUSINESS; CHARGE CENSUS OFFICE, WASHINGTON, D. C.", may be accepted without prepayment. When addressed to Washington such messages should be sent checked "COLLECT GOVERNMENT RATE," and when addressed to places other than Washington should be sent checked "PAID GOVERNMENT RATE." Those sent checked "PAID GOVERNMENT RATE" should be taken credit for in the Account Current portion of the monthly Form No. 4 report, the original messages being sent in therewith.

THOS. T. ECKERT,
President and General Manager.

COLLIS P. HUNTINGTON, President of the Southern Pacific R. R. Co., and a Director of the Western Union Telegraph Co., died at his summer home in the Adirondacks, on August 18, 1900.

J. E. ZEUBLIN, Superintendent of the Chicago Telephone Co., and formerly Superintendent of the Sixth District of the Eastern Division of the Western Union Telegraph Co., was killed on July 25th, at Bucyrus, Ohio, by falling from a railroad train. Mr. Zeublin from his boyhood until 1889, was a telegraph operator, manager, and superintendent. During the Civil War he was a military telegraph operator. After the close of the war he re-entered the commercial telegraph service and was connected with the Western Union, American Union, and the Baltimore & Ohio, Telegraph Companies. In 1889, he entered the telephone service, with which he was connected up to the time of his death.

J. J. S. WILSON died at Chicago on August 19th, aged 65 years. Colonel Wilson in 1850 was Superintendent of the Hotchkiss Telegraph Line between Chicago and Madison, Wis. In 1861 he was by the Governor of Illinois, commissioned Colonel in charge of the military telegraph system in his district which then was one of the districts of the Illinois & Mississippi Telegraph Co. Prior to 1881 he was for many years Superintendent of the First District of the Western Division of the Western Union Telegraph Co. under the late General Stager, who was then the General Superintendent of that Division.

TREASURER'S OFFICE,
WESTERN UNION TELEGRAPH COMPANY,
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (Form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 66.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz :

Not exceeding \$5.00,	6 cts.	Over \$60.00 to	\$60.00,
Over \$6.00 to 10.00,	8 cts.	Over \$60.00 to	10 cts.
Over 10.00 to 20.00,	10 cts.	Over \$60.00 to	15 cts.
Over 20.00 to 30.00,	12 cts.	Over 15.00 to	20 cts.
Over 30.00 to 40.00,	15 cts.	Over 20.00 to	30 cts.

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. WILBUR, TREASURER, and sent by mail. They must not be made payable to M. T. WILBUR without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Treasurer,

DAVID FLANERY, an oldest old-time telegrapher, died on August 6th, aged 72 years. Fifty years ago he was manager of the Gallatin, Miss., telegraph office. Subsequently he was manager of the Western Union Co.'s office at New Orleans and superintendent at New Orleans of the Western Union Co.'s then 12th District, Southern Division. For some time past he has been a member of the Western Union Co.'s operating staff at Memphis, Tenn., where he died.

ACCORDING to "The Electro-Technical Gazette," German electrical works show great increase. On March 1st last, there were in operation 652 electrical works, against 489 the previous year. One hundred and twenty-two works were in progress of construction, of which 17 were to be ready for operation on July 1st. Twenty-seven of all the works were completed before 1890; all the others were constructed within the last ten years. The number of places with electric light exceeds that of places illuminated by gas—900 against 850. The largest electrical plant is at Rheinfelden, with 12,860 kilowatts. Then follow one at Berlin, 9,230 kilowatts; one at Hamburg, 7,290 kilowatts; one at Munich, 6,110 kilowatts; two others at Berlin, of 5,452 and 5,812 kilowatts, respectively; one at Strasburg, 4,955 kilowatts; two others at Berlin, of 4,676 and 4,655 kilowatts, respectively; one at Chorzon; 4,810 kilowatts; one at Frankfort, 4,152 kilowatts; one at Dresden, 3,580 kilowatts; one at Stuttgart, 3,208 kilowatts; and another at Hamburg, 3,150 kilowatts. All the electrical works supplied last year 2,623,893 incandescent lamps, 50,070 arc lamps, 106,688 horse power for electromotors, etc.

TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

—ORGANIZED 1867.—

OLDEST FRATERNAL BENEFIT SOCIETY IN THE UNITED STATES.

Reserve Fund - - \$176,000

MEMBERSHIP - - 5,000

WALTER C. HUMSTONE, President, New York.

Organized and started on its beneficent career thirty-three years ago, it has since afforded protection to nearly 10,000 telegraphers and has now 5,000 members of both sexes carrying insurance for the protection of their families and dependents.

Although death claims aggregating nearly \$1,000,000 have been paid, there has never been a case where the claim was contested, as a clause in the constitution provides that every certificate of membership is contestable after a membership of one year.

A Reserve Fund of \$176,000 for the protection of its present members, and of the new additions which are constantly being added to its ranks, has been accumulated and securely invested.

The annual revenue from this Reserve Fund for many years past, has been sufficient to pay all current expenses and several death claims in addition.

This explains why the total number of assessments levied for the past thirty-three years has been but 367, or an average of less than twelve per annum.

The Association is under the supervision, and subject to the periodical examination, of the Superintendent of the Insurance Department of the State of New York, who certified after his last examination, January, 1898, that the affairs of the Association were in a most prosperous condition, that claims were paid promptly and in full, and that the expense of management was confined to the expenses attending collections of assessments.

As it should always be borne in mind that membership can only be secured while in good health, the present is the time to make application.

All persons in good health between the ages 18 and 45 employed in any capacity in the telegraph or telephone service, are eligible for membership.

Insurance Full Grade, \$1,000. Half Grade, \$500, or both grades, \$1,500.

Initiation fee, \$2 for each grade.
Rates from 60 cents to \$8, graded according to age.

Monthly assessments.

Agents in all principal cities.

PHILLIPS'S MORSE AUTOMATIC TELEGRAPH

A PRACTICAL SCHEME

(FROM THE NEW YORK SUN)

There was an interesting exhibition on Sunday of a recently invented system of rapid telegraphy. The system is the invention of R. H. Weiny and Walter P. Phillips, both of this city, and it is intended to be applied directly to the ordinary telegraph lines and to be operated by the currents now in use.

What the Phillips's Morse Automatic Telegraph will do is to double or treble the number of words that can be sent over a single wire, and this without requiring that the operators learn anything beyond that which the present Morse operators know now. This result is accomplished by the addition to each office of a set of very simple instruments. When there is no need of hurrying matter forward over the wires the rapid system can be out of use by changing a plug, and the wires can be used in the ordinary way—sending messages directly by the key. The system is one which is of value principally to the telegraph companies themselves and to the users of leased wires, but the public would often find a direct benefit from its adoption through getting messages promptly which are now often delayed when there is trouble with the wires and their capacity is reduced below the normal.

In this system the messages are recorded in raised telegraphic characters on a strip of paper, and this strip being run through a proper machine the characters are repeated by sound at the other end of the wire, and the operator, reading them by ear, takes them upon a typewriter or by hand. The transcribing operator can vary the speed of the taps as it goes through the machine to suit himself, can stop it at any point, and can pull it back if he wants it repeated. It is asserted that the greater number of mistakes that occur in the Wheatstone system are in the reading and transcribing, and that these are done away with in the new system, because the ear is more accurate than the eye and also faster. These claims seemed all to be proved by the tests made yesterday. An article in the *Sun* was chosen for the test. This was handed to a Morse operator, and while he sent it the operator, who was afterward to transcribe it, left the room. The sending operator worked at the ordinary key, just as he would in sending a message over the wire in the present Morse system. The message, however, instead of going over the main wire, was sent only over a local office wire. It was received in a machine, which was, to all intents and purposes, like the registering machine which every operator used

forty years ago, before men had learned to read by sound. The dots and dashes were reproduced in a strip of paper, each being raised above the surface of the paper by a point which pressed that part of the paper into a groove in a wheel which the paper passed over. Instead of producing a single line of these impressions, there were three points which worked side by side and left three sets of duplicate impressions. The duplication is merely to insure accuracy. The message was telegraphed in this part of the process at the ordinary rate of speed.

Now came the second process—the transmission over the main wire. The transmitting instrument and the recording instrument, at opposite ends of the wire, were set going at a speed three times as great as that of the hand operator. The strip of paper with the message imprinted on it was started through the transmitter, and the recorder went rattling away at a rate which no man could read, but every impression was afterward found to be an exact duplicate of those in the strip going through the transmitter. When this process was completed the paper from the recorder was brought over to the transmitter, and the latter machine was slowed down again to a speed equal to that of ordinary telegraphing. The transmitter was now assumed to be only an office machine run upon an office circuit and entirely separate from the line wire, as would be the case in the third process—that of taking the message from the transmitted copy and turning it into ordinary writing. A typewriter who could read telegraphy by sound sat in front of his machine and as soon as the strip was started through the transmitter he began to print out the message. When he had finished, the typewritten copy was compared with the original article in the *Sun* and found to be exactly correct.

In practice, the manner in which the system would be used is this: Since the transmitter is able to send three times as many messages in a given time as a single operator can send or receive, there would be three operators in each office to each wire. In the sending office these operators would be kept busy making the tape copies of the messages by ticking them off on office recorders. As fast as their messages were ready they would be run through the transmitter, which would reproduce them at the triple speed at the other end of the wire. There the three other operators would each take a part of the messages and transcribe them. There is absolutely no loss of time.

PRICES

Type A, with 1 roll of tape containing 1,000 words....	\$35.00
Type M. The reproducing part of this machine is put up in a beautiful cabinet and is operated by a duplex tandem motor of recent invention. It will run, at each winding, from one to two hours, according to the speed given it. Price with 4 rolls of tape containing 1,000 words, each.....	50.00
Type M. The recording part of this machine is put up in the same way as the preceding. It will run an equal length of time.....	65.00
Type M, complete, comprising both reproducer and recorder, when desired for use in country office or linotype work.....	108.00
Type F. The reproducing part of this machine is the Morse Automatic proper. It is fitted up with the duplex tandem spring motor.....	60.00

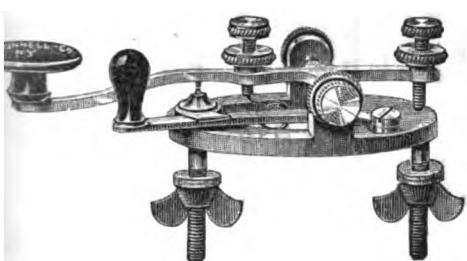

Type F. The recording part of this machine fitted with tandem motor.....	\$75.00
Type F, complete, for fast work and comprising both the reproducer and recorder.....	125.00
Type F-E. The reproducing and recording parts of this machine, separately and in combination, sell for the same as Type F. It has an electric motor adaptable to both the incandescent and the storage battery currents.	
Additional matrices containing 1,000 words for types A and M, 50 cents each.	
In ordering matrices say whether straight sending is wanted or code sending, and whether in the Morse or Continental alphabet. If the language is not specified it will be taken for granted that English matrices are wanted.

PUBLIC LIBRARY
ASTOR, LENOX AND
TULUA FOUNDATIONS

VOL. XXXIII.

NEW YORK, OCTOBER 20, 1900.

WHOLE NO. 568.

ANNUAL REPORT OF THE PRESIDENT OF THE WESTERN UNION TELEGRAPH COMPANY FOR THE YEAR ENDED JUNE 30, 1900.

APPROVED BY THE EXECUTIVE COMMITTEE AND
ORDERED TO BE SUBMITTED TO
THE STOCKHOLDERS.

CAPITAL STOCK.

The capital stock outstanding remains the same, namely, \$97,870,000.00, of which \$29,384.95 belongs to and is in the treasury of the company.

BONDED DEBT.

The bonded debt at the close of the year was as follows:

Collateral Trust Bonds due January 1, 1888, against which bonds and stocks bearing the company's guarantee of interest or dividends at six per cent per annum have been deposited with the trustee, five per cent.....	\$1,502,000.00
Funding and Real Estate Mortgage Bonds due May 1, 1900, four and one-half per cent.....	10,000,000.00
Building Bonds due May 1, 1902, seven per cent....	1,158,000.00
	\$19,660,000.00
Less unused balance of sinking funds appropriations for redemption of the Building Bonds, due May 1, 1902.....	157,869.54
	<u>\$19,502,330.46</u>

During the year \$5,000 of the seven per cent. Building Bonds have been redeemed by the sinking fund trustees.

At a special meeting of the stockholders of the company, held March 14, 1900, the issue of \$20,000,000 of Four and One-Half Per Cent. Funding and Real Estate Mortgage Fifty-Year Gold Bonds was duly authorized. The mortgage executed to the Farmers' Loan and Trust Company, as Trustee, provides that

"(1) Ten million dollars (\$10,000,000) face value of said bonds shall be certified, issued and delivered upon the request and at the instance of the Telegraph Company as aforesaid, and the proceeds shall be used and applied solely for the purpose of paying and discharging at or before maturity the following indebtedness and of reimbursing the cost of the following property of the Telegraph Company:

- (a) Sterling six per cent, gold twenty-five year bonds, due March 1, 1900, amounting, face value, to about..... \$761,000
- (b) Sterling seven per cent, twenty-five year coupon bonds, due May 1, 1900, amounting, face value, to about..... 4,920,000
- (c) Cost of new property acquired and new lines constructed from 1895 to June 30, 1899, about..... 2,078,500

"The balance of such proceeds remaining after paying the above-mentioned items or providing therefore by the deposit of the principal thereof with the Trustee, shall be applied in payment of the indebtedness of the Telegraph Company incurred since June 30, 1899, or hereafter incurred, or of moneys expended by it for new property, betterments, or the construction of new lines or plant.

"(2) About one million dollars (\$1,000,000) face value of said bonds shall be certified, issued and delivered from time to time, upon the request and at the instance of the Telegraph Company as aforesaid, upon such terms as the Board of Directors of the Telegraph Company may direct, and the proceeds thereof shall be used and applied for the purpose of paying or discharging or providing for the real estate seven per cent gold thirty-year bonds of the Telegraph Company due May 1, 1902.

"(3) The remaining nine million dollars (\$9,000,000) or thereabouts, face value, of said bonds shall be reserved, and shall be certified, issued and delivered from time to time upon the request and at the instance of the Telegraph Company as aforesaid, but only in each instance upon presentation of a resolution of the Board of Directors of the Telegraph Company duly certified by its president or one of its vice presidents and its secretary or an acting secretary, calling for the certification and delivery of such bonds and setting forth that the bonds called for in such resolution, or the proceeds thereof, are needed and required and will be used solely for or on account of the purchase of improvements, betterments and extensions of the property and the development and enlargement of the business of the Telegraph Company or for such other corporate purposes as may be authorized by law. The Telegraph Company agrees and covenants that the said bonds and the proceeds thereof shall be used and applied solely for the purposes expressed in any such resolution."

In accordance with these provisions, \$10,000,000 of the new bonds were duly issued, and the six per cent. and seven per cent. bonds, due March 1st and May 1, 1900, were discharged and canceled on the respective dates of their maturity.

The interest paid on outstanding bonds last year was \$896,805.60. The amount of the interest payable on the bonds now outstanding is \$956,160, or an increase of \$59,854.40 per year. When the seven per cent. Building Bonds are paid off, in 1902, by the issue of \$1,000,000 of four and one-half per cent. bonds, the increase in the interest account, on the same comparison, will be \$23,794.40 per year; while, in addition to the refunding of matured bonds, \$4,818,924 of the new issue of \$11,000,000 has been provided for the other purposes prescribed in the mortgage, as shown above.

BUSINESS OF THE YEAR.

Surplus July 1, 1899..... \$8,066,927.68
The net revenue, expenses and profits of the year ended June 30, 1900, were as follows:

Revenues.....	\$24,768,569.55
